### Owner's Record

The model and serial numbers are located on the bottom of the unit.  
Record the serial number in the space provided below.  
Refer to these numbers whenever you call upon your Sony dealer  
regarding this product.

Model No. RSX-GS9

Serial No. \_\_\_\_\_

For the connection/installation, see page 27.

Pour le raccordement/l'installation, reportez-vous à la page 30.

\* 4 5 7 7 1 0 1 1 2 \* (1)

For safety, be sure to install this unit in the dashboard of the car as the top of the unit becomes hot during use.  
For details, see "Connection/Installation" (page 27).

The nameplate indicating operating voltage, etc., is located on the bottom of the chassis.

## Warning

**FOR THE CUSTOMERS IN THE USA. NOT APPLICABLE IN CANADA, INCLUDING IN THE PROVINCE OF QUEBEC.**

**POUR LES CLIENTS AUX ÉTATS-UNIS. NON APPLICABLE AU CANADA, Y COMPRIS LA PROVINCE DE QUÉBEC.**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

You are cautioned that any changes or modifications not expressly approved in this manual could void your authority to operate this equipment.

This device complies with Part 15 of the FCC Rules and Industry Canada's licence-exempt RSSs. Operation is subject to the following two conditions:

- (1) This device may not cause interference; and
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.

This equipment complies with FCC/IC radiation exposure limits set forth for an uncontrolled environment and meets the FCC radio frequency (RF) Exposure Guidelines and RSS-102 of the IC radio frequency (RF) Exposure rules. This equipment has very low levels of RF energy that is deemed to comply without maximum permissive exposure evaluation (MPE). But it is desirable that it should be installed and operated keeping the radiator at least 20 cm or more away from person's body.

### For the State of California, USA only

Perchlorate Material – special handling may apply, See

[www.dtsc.ca.gov/hazardouswaste/perchlorate](http://www.dtsc.ca.gov/hazardouswaste/perchlorate)

### Note on the lithium battery

Do not expose the battery to excessive heat such as direct sunlight, fire or the like.

### Disclaimer regarding services offered by third parties

Services offered by third parties may be changed, suspended, or terminated without prior notice. Sony does not bear any responsibility in these sorts of situations.

## Important notice

### Caution

IN NO EVENT SHALL SONY BE LIABLE FOR ANY INCIDENTAL, INDIRECT OR CONSEQUENTIAL DAMAGES OR OTHER DAMAGES INCLUDING, WITHOUT LIMITATION, LOSS OF PROFITS, LOSS OF REVENUE, LOSS OF DATA, LOSS OF USE OF THE PRODUCT OR ANY ASSOCIATED EQUIPMENT, DOWNTIME, AND PURCHASER'S TIME RELATED TO OR ARISING OUT OF THE USE OF THIS PRODUCT, ITS HARDWARE AND/OR ITS SOFTWARE.

Dear customer, this product includes a radio transmitter.

Please check your vehicle operation manual or contact the manufacturer of your vehicle or your vehicle dealer, before you install this product into your vehicle.

### Emergency calls

This BLUETOOTH car handsfree and the electronic device connected to the handsfree operate using radio signals, cellular, and landline networks as well as user-programmed function, which cannot guarantee connection under all conditions.

Therefore do not rely solely upon any electronic device for essential communications (such as medical emergencies).

### On BLUETOOTH communication

- Microwaves emitting from a BLUETOOTH device may affect the operation of electronic medical devices. Turn off this unit and other BLUETOOTH devices in the following locations, as it may cause an accident.
  - where inflammable gas is present, in a hospital, train, airplane, or petrol station
  - near automatic doors or a fire alarm
- This unit supports security capabilities that comply with the BLUETOOTH standard to provide a secure connection when the BLUETOOTH wireless technology is used, but security may not be enough depending on the setting. Be careful when communicating using BLUETOOTH wireless technology.
- We do not take any responsibility for the leakage of information during BLUETOOTH communication.

If you have any questions or problems concerning your unit that are not covered in this manual, consult your nearest Sony dealer.

# Guide to Parts and Controls

## Main unit

- In this manual, procedures are explained mainly for the remote commander unless otherwise specified.
- Available buttons light up depending on the selected source.

### 1 Receptor for the remote commander

### 2 Display window

### 3 Volume dial

Rotate to adjust the volume.

#### N-Mark

Touch with an NFC compatible smartphone to make a Bluetooth® connection.

### 4 SRC (source)

Turn on the power.  
Change the source.

#### OFF

Press and hold for 1 second to turn the source off and display the clock.  
Press and hold for more than 2 seconds to turn off the power and the display.  
If the unit is turned off and the display disappears, operation by the remote commander is not available.

### 5 ◀◀/▶▶ (prev/next)

USB1/USB2: Skip tracks.

Tuner: Receive stored radio stations.

#### ▼/▲ (album -/+)

USB1/USB2: Press and hold to skip albums.

Tuner: Press and hold to tune in radio station automatically.

### 6 ▶|| (play/pause)

USB1/USB2: Start/pause playback. While playback is paused, the illumination of the unit flashes.

Tuner: Change the band.

#### PAIRING (page 10)

Press and hold for 2 seconds to enter the BLUETOOTH pairing standby mode.

### 7 BLUETOOTH indicator

### 8 Reset button (page 9)

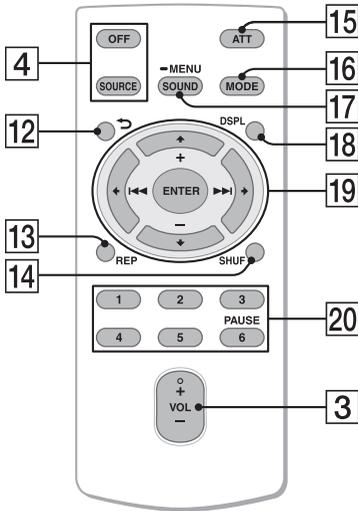

### 9 AUX input jack

### 10 USB micro-B port (for USB-DAC)

### 11 USB type-A port (for USB1)

Charging the connected device (USB High-charge) is also supported.

## RM-X261 Remote commander

### 19 ←/↑/↓/→

Select a setup item, etc.

### ENTER

Enter the selected item.

### ⏪/⏩ (prev/next)

USB1/USB2: Skip tracks.

Tuner: Tune in the radio station automatically.

Press and hold to tune manually.

### +/- (album +/-)

USB1/USB2: Skip albums.

Tuner: Receive stored radio stations.

### 20 Number buttons (1 to 6)

Receive stored radio stations.

Press and hold to store stations.

### PAUSE

Remove the insulation film before use.

The VOL (volume) + button has a tactile dot.

### 12 ↶ (back)

Return to the previous display.

### 13 REP (repeat)

### 14 SHUF (shuffle)

### 15 ATT (attenuate)

Attenuate the sound. Press again to cancel the attenuation.

### 16 MODE (page 12)

### 17 SOUND\*1\*2

Open the sound menu directly.

### —MENU\*1

Press and hold to open the setup menu.

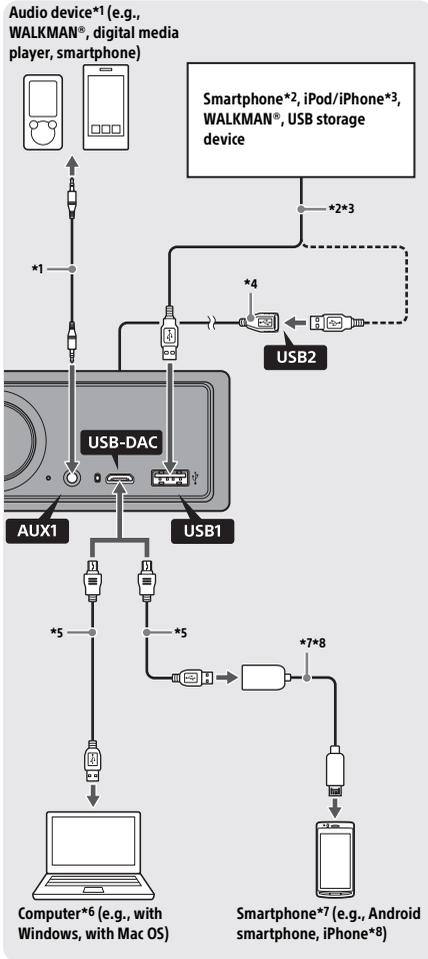

\*1 Not available when the BT phone is selected.

\*2 Not available while the optical output is enabled, or the source is off and the clock is displayed.

### 18 DSPL (display)

Change display items.

# Guide to Audio Device Connection

- \*1 Audio device with a stereo mini jack. When connecting, a stereo mini plug (not supplied) is required. Do not use any type of plug that interferes with the instrument panel of the car.
- \*2 Only a smartphone in MSC mode is available. When connecting a smartphone, an appropriate USB cable (not supplied) is required.
- \*3 When connecting an iPod/iPhone, a USB connection cable for iPod/iPhone (not supplied) is required.
- \*4 Use the USB extension cable (supplied).
- \*5 Use an appropriate USB cable (USB-A plug to USB micro B plug) (not supplied).
- \*6 To play High-Resolution Audio files, using the audio playback software "Hi-Res Audio Player" or "Media Go" is recommended.  
When using "Hi-Res Audio Player":  
For Windows, installing the dedicated driver to your computer is required. For Mac OS, no driver is required.  
When using "Media Go":  
For Windows, installing the dedicated driver to your computer is required. For Mac OS, "Media Go" is not supported.  
For further details, visit the support site on the back cover.
- \*7 When connecting an Android smartphone, a USB OTG cable (not supplied) is required. Depending on the smartphone, downloading the dedicated app for playing High-Resolution Audio files is required.
- \*8 When connecting an iPhone/iPod, an exclusive cable (not supplied) is required. This cable may not be available in your country or region.

Design and specifications are subject to change without notice.

## For your safety

To prevent a traffic accident, make sure that the connected cables do not interfere with the air-bag system or driving operation.

## Playable High-Resolution Audio file formats

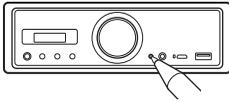

Playable file formats, sampling frequencies and bit depths differ depending on whether the USB type-A port or the USB micro-B port is used.

	USB-DAC (USB micro-B port)	USB1 (USB type-A port, Front)	USB2 (USB type-A port, Rear)
DSD	ASIO Native: 2.8 MHz/1 bit, 5.6 MHz/1 bit DoP: 2.8 MHz/1 bit, 5.6 MHz/ 1 bit	-	-
PCM	Max. 192 kHz/24 bit	-	-
DSF	-	2.8 MHz/1 bit (PCM convert)	2.8 MHz/1 bit (PCM convert)
DSDIFF	-	2.8 MHz/1 bit (PCM convert)	2.8 MHz/1 bit (PCM convert)
WAV	-	192/176.4/96/88.2/48/44.1 kHz (24 bit), 192/176.4/96/88.2 kHz (16 bit)	192/176.4/96/88.2/48/44.1 kHz (24 bit), 192/176.4/96/88.2 kHz (16 bit)
AIFF	-	192/176.4/96/88.2/48/44.1 kHz (24 bit), 192/176.4/96/88.2 kHz (16 bit)	192/176.4/96/88.2/48/44.1 kHz (24 bit), 192/176.4/96/88.2 kHz (16 bit)
FLAC	-	192/176.4/96/88.2/48/44.1 kHz (24 bit), 192/176.4/96/88.2 kHz (16 bit)	192/176.4/96/88.2/48/44.1 kHz (24 bit), 192/176.4/96/88.2 kHz (16 bit)
ALAC	-	192/176.4/96/88.2/48/44.1 kHz (24 bit), 192/176.4/96/88.2 kHz (16 bit)	192/176.4/96/88.2/48/44.1 kHz (24 bit), 192/176.4/96/88.2 kHz (16 bit)

## Getting Started

### Resetting the Unit

Before operating the unit for the first time, after replacing the car battery, or changing the connections, you must reset the unit.

#### Note

Pressing the reset button will erase the clock setting and some stored contents.

### Setting the Clock

Use the remote commander to perform the following.

- 1 Press and hold MENU, press **↑** or **↓** to select [General], then press ENTER.
- 2 Press **↑** or **↓** to select [Clock Adjust], then press ENTER.  
The hour indication flashes.
- 3 Press **↑** or **↓** to set the hour and minute.  
To move the digital indication, press **←** or **→**.
- 4 After setting the minute, press ENTER.  
The setup is complete and the clock starts.

#### To display the clock

Press DSPL.

### Preparing a BLUETOOTH Device

You can enjoy music, or perform handsfree calling depending on the BLUETOOTH compatible device such as a smartphone, cellular phone and audio device (hereafter "BLUETOOTH device" if not otherwise specified). For details on connecting, refer to the operating instructions supplied with the device.

There are two ways for connecting the BLUETOOTH device:

- **One-touch connection for the NFC compatible BLUETOOTH device.**
- **Manual connection.**

Before connecting the device, turn down the volume of this unit; otherwise, loud sound may result.

### Connecting with a Smartphone by One touch (NFC)

By touching the N-Mark on the unit with an NFC\* compatible smartphone, the unit is paired and connected with the smartphone automatically.

\* NFC (Near Field Communication) is a technology enabling short-range wireless communication between various devices, such as mobile phones and IC tags. Thanks to the NFC function, data communication can be achieved easily just by touching the relevant symbol or designated location on NFC compatible devices.

For a smartphone with Android™ OS 4.0 or lower installed, downloading the app "NFC Easy Connect" available at Google Play™ is required. The app may not be downloadable in some countries/regions.

- 1 **Activate the NFC function on the smartphone.**  
For details, refer to the operating instructions supplied with the smartphone.
- 2 **Touch the N-Mark part of the unit with the N-Mark part of the smartphone.**

Make sure the BLUETOOTH indicator on the unit lights up.

#### To disconnect by One touch

Touch the N-Mark part of the unit with the N-Mark part of the smartphone again.

#### Notes

- When making the connection, handle the smartphone carefully to prevent scratches.
- One touch connection is not possible when the unit is already connected to another NFC compatible device. In this case, disconnect the other device, and make connection with the smartphone again.

## Pairing and connecting with a BLUETOOTH device

When connecting a BLUETOOTH device for the first time, mutual registration (called “pairing”) is required. Pairing enables this unit and other devices to recognize each other.

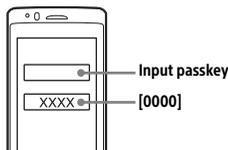

- 1 Place the BLUETOOTH device within 1 m (3 ft) of this unit.
- 2 Press and hold **▶||** on the unit for more than 2 seconds.  
Alternatively, press and hold MENU on the remote commander, select [BT Setting] → [Pairing], then press ENTER.  
The BLUETOOTH indicator on the unit flashes (while the unit is in pairing standby mode).
- 3 Perform pairing on the BLUETOOTH device so it detects this unit.
- 4 Select [RSX-GS9] shown in the display of the BLUETOOTH device.  
If your model name does not appear, repeat from step 2.

- 5 If passkey\* input is required on the BLUETOOTH device, input [0000].

\* Passkey may be called “Passcode,” “PIN code,” “PIN number” or “Password,” etc., depending on the device.

When paired, the BLUETOOTH indicator on the unit stays lit.

- 6 Select this unit on the BLUETOOTH device to establish the BLUETOOTH connection.

### Note

While connecting to a BLUETOOTH device, this unit cannot be detected from another device. To enable detection, enter the pairing mode and search for this unit from another device.

### To start playback

For details, see “Playing a BLUETOOTH Device” (page 13).

### To cancel pairing

Perform step 2 to cancel the pairing mode after this unit and the BLUETOOTH device are paired.

## Connecting with a paired BLUETOOTH device

To use a paired device, connection with this unit is required. Some paired devices will connect automatically.

- 1 Press and hold MENU on the remote commander, select [BT Setting] → [BT Signal], then press ENTER.  
Make sure the BLUETOOTH indicator on the unit lights up.
- 2 Activate the BLUETOOTH function on the BLUETOOTH device.
- 3 Operate the BLUETOOTH device to connect to this unit.

### To connect the last-connected device from this unit

Activate the BLUETOOTH function on the BLUETOOTH device.  
Press SOURCE (SRC), then select [BT Phone]\* or [BT Audio].  
Press ENTER to connect with the cellular phone, or PAUSE to connect with the audio device.

\* Available only when the “SongPal” connection is established.

### Note

While streaming BLUETOOTH audio, you cannot connect from this unit to the cellular phone. Connect from the cellular phone to this unit instead.

### Tip

With BLUETOOTH signal on: when the ignition is turned to on, this unit reconnects automatically to the last-connected cellular phone.

### To install the microphone

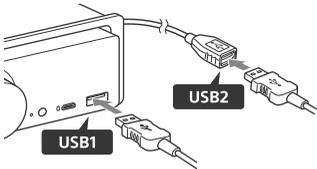

For details, see “Installing the microphone” (page 30).

---

## Connecting a USB Device

- 1 Turn down the volume on the unit.
- 2 Connect the USB device to the USB type-A port.

To connect an iPod/iPhone, use the USB connection cable for iPod/iPhone (not supplied).

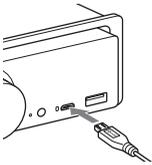

---

## Connecting a High-Resolution USB Audio Supported Device

- 1 Turn down the volume on the unit.
- 2 Connect a High-Resolution USB Audio supported computer, smartphone or digital media player to the USB micro-B port.

For details, see "Guide to Audio Device Connection" (page 7).

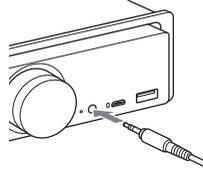

---

## Connecting Other Portable Audio Device

- 1 Turn down the volume on the unit.
- 2 Connect the portable audio device to the AUX input jack (stereo mini jack) on the unit with a connecting cord (not supplied)\*.

\* Do not use any type of plug that interferes with the instrument panel of the car.

When making the high level input connection, see "AUX2" in "Connection" for details (page 28).

- 3 Press SRC to select [AUX1].  
Alternatively, select [AUX2] for the high level input connection.

### To match the volume level of the connected device to other sources (for AUX1 only)

Start playback of the portable audio device at a moderate volume, and set your usual listening volume on the unit.

Press and hold MENU, then select [Sound] → [AUX Level] (page 18).

## Listening to the Radio

### Listening to the Radio

To listen to the radio, press SOURCE (SRC) to select [Tuner].

Use the remote commander to perform the following.

#### Storing automatically (BTM)

- 1 Press MODE to change the band (FM1, FM2, FM3, AM1 or AM2).  
Alternatively, press ►|| on the unit to change the band.
- 2 Press and hold MENU, press ↑ or ↓ to select [General], then press ENTER.
- 3 Press ↑ or ↓ to select [BTM], then press ENTER.  
The unit stores stations in order of frequency on the number buttons.

#### Tuning

- 1 Press MODE to change the band (FM1, FM2, FM3, AM1 or AM2).  
Alternatively, press ►|| on the unit to change the band.
- 2 Perform tuning.  
To tune manually  
Press and hold ◀ or ▶ to locate the approximate frequency, then press ◀ or ▶ repeatedly to fine adjust to the desired frequency.  
To tune automatically  
Press ◀ or ▶. (Alternatively, press and hold ◀◀ or ▶▶ on the unit for more than 1 second.)  
Scanning stops when the unit receives a station.

#### Storing manually

- 1 While receiving the station that you want to store, press and hold a number button (1 to 6) until [MEM] appears.

#### Receiving the stored stations

- 1 Select the band, then press a number button (1 to 6).  
Alternatively, press ◀◀ or ▶▶ on the unit.

## Playback

### Playing a USB Device

In these Operating Instructions, “iPod” is used as a general reference for the iPod functions on an iPod and iPhone, unless otherwise specified by the text or illustrations.

For details on the compatibility of your iPod, see “About iPod” (page 20) or visit the support site on the back cover.

MSC (Mass Storage Class)-type USB devices (such as a USB flash drive, digital media player, Android smartphone) compliant with the USB standard can be used.

Depending on the digital media player or Android smartphone, setting the USB connection mode to MSC is required. (A USB device in MTP mode is not available.)

#### “Music” folder and its location (when connecting the USB device)

Be sure to store audio files in a folder named “Music”, and organize the folder directly under the root directory of the USB device. Otherwise the unit will not recognize audio files on the device.

#### Notes

- For details on the compatibility of your USB device, visit the support site on the back cover.
- During USB playback, fast-forward/fast-reverse operation is not supported.
- The unit starts reading the file structure of the connected device when playback is performed.
- [\*] appears on the display while the unit is reading the file structure of the connected device. While [\*] is displayed, a track or album (folder) cannot be skipped.
- During USB playback via the USB type-A port, a DSD file on the connected device is converted into PCM format.
- Playback of the following files is not supported.  
WMA/AAC:
  - copyright-protected files
  - DRM (Digital Rights Management) filesWMA:
  - lossless compression files
  - multi-channel audio files
- As a guide, recognizing a total of 2,000 audio files in 200 folders on the USB device takes about 150 seconds.
- The unit may take some time to recognize the USB device if its file organization has been updated.
- Before connecting the USB device, be sure to select USB1 or USB2. If a USB device with updated file structure is connected while the unit and the display are off, or without selecting USB1 or USB2, the unit will not recognize the latest file organization of the device.

## 1 Connect a USB device to the USB type-A port (page 11).

Playback starts. (Depending on the file organization, playback may take time to start.)

## 2 Adjust the volume on this unit.

### To pause playback

Press **▶II**.

### To remove the device

Stop playback, then remove the device.

### To display the sampling frequency and bit depth of the audio file being played

Press **DSPL** during playback.

#### Notes

- When DSD playback is performed via USB1 or USB2, the sampling frequency and bit depth before converting to PCM format are displayed.
- When an iPod/iPhone is connected to USB1 or USB2, the sampling frequency and bit depth are not displayed.

### Caution for iPhone

When you connect an iPhone via USB, phone call volume is controlled by the iPhone, not the unit. Do not inadvertently increase the volume on the unit during a call, as a sudden loud sound may result when the call ends.

---

## Playing a High-Resolution USB Audio Supported Device

For details on the compatibility of your High-Resolution USB Audio device and the DSD supported audio playback software or app, see the support site on the back cover.

### For your safety

- Do not operate the High-Resolution USB Audio supported device while driving.
- Before driving your car, make sure the High-Resolution USB Audio supported device will not play loudly during playback (especially during native DSD playback).

## 1 Connect a High-Resolution USB Audio supported device to the USB micro-B port (page 11).

## 2 Operate the device to start playback.

## 3 Adjust the volume on this unit.

### To stop playback

Operate the device to stop playback. The controls on the unit or the remote commander do not work.

### To remove the device

Stop playback, then remove the device.

### To display the sampling frequency and bit depth of the audio file being played

Press **DSPL** during playback.

For example, the information appears as follows:

[192/24]: 192 kHz/24 bit

[DSD 5.6MHz]: 5.6 MHz/1 bit

#### Notes

- Gapless playback is performed when the sampling frequency and bit depth are identical to those of the next or previous track.
- If the displayed sampling frequency and bit depth are not appropriate, check the settings of the device and its connection.
- For a DSD file on the device connected via the USB micro-B port, native DSD playback is performed. During playback, make sure that the native DSD playback on the High-Resolution USB Audio supported device performs properly. Corresponding data interface, sampling frequency and bit depth:
  - PCM: Max. 192 kHz/24 bit
  - DSD: ASIO Native: 2.8 MHz/1 bit, 5.6 MHz/1 bit DoP: 2.8 MHz/1 bit, 5.6 MHz/1 bit

---

## Playing a BLUETOOTH Device

You can play contents on a connected device that supports BLUETOOTH A2DP (Advanced Audio Distribution Profile). Using an LDAC-supported device is recommended.

## 1 Make BLUETOOTH connection with the audio device (page 9).

## 2 Press **SRC** to select [BT Audio].

Alternatively, press **SOURCE** on the remote commander.

## 3 Operate the audio device to start playback.

## 4 Adjust the volume on this unit.

#### Notes

- Even if the source is changed on this unit, playback of the audio device does not stop.
- [BT Audio] does not appear in the display while running the "SongPal" application via the BLUETOOTH function.

## To match the volume level of the BLUETOOTH device to other sources

Start playback of the BLUETOOTH audio device at a moderate volume, and set your usual listening volume on the unit.

Press and hold MENU, then select [BT Setting] → [BTA Level] (page 18).

## To apply the SBC codec only

Press and hold MENU on the remote commander, then set [Audio Codec] in [BT Setting] to [SBC] (page 18).

---

## Searching and Playing Tracks

Use the remote commander to perform the following.

For the iPod, repeat play and shuffle play are not available.

---

### Repeat play and shuffle play

#### 1 During USB1 or USB2 playback, press REP or SHUF repeatedly to select the desired play mode.

Playback in the selected play mode may take time to start.

Repeat play mode:

- [Repeat Track] plays the track repeatedly.
- [Repeat Album] plays tracks in the album (folder) repeatedly.
- [Repeat OFF] cancels repeat play.

Shuffle play mode:

- [Shuffle Device] plays all tracks in the “Music” folder in random order.
- [Shuffle OFF] cancels shuffle play.

#### Notes

- During repeat play, shuffle play mode cannot be selected. During shuffle play, only [Repeat Track] can be selected, and [Repeat Album] cannot be selected.
- [Shuffle Device] is only available when repeat play is off.
- When shuffle play is performed or canceled, playback starts from the first track in the “Music” folder.
- While shuffle play is performed with [Repeat Track] selected, pressing ►► will cancel [Repeat Track] and restart shuffle play from the first track in the “Music” folder.
- During shuffle play, the list display on “SongPal” is not available. To enable the list display, cancel shuffle play mode.

---

## Handsfree Calling (via BLUETOOTH only)

To use a cellular phone, connect it with this unit. For details, see “Preparing a BLUETOOTH Device” (page 9). Only while the “SongPal” connection is established, [BT Phone] becomes available when selecting the source.

Use the controls on the unit to perform the following.

---

## Receiving a Call

### 1 Press any button when a call is received with a ringtone.

The phone call starts.

#### Note

The ringtone and talker's voice are output only from the audio device connected to FRONT AUDIO OUT.

#### To reject the call

Press and hold the following button:

- any button other than SRC for 2 seconds.
- SRC for 1 to 2 seconds.

#### To end the call

Press SRC.

---

## Making a Call

You can make a call via “SongPal” only. For details, see “SongPal with iPhone/Android smartphone” (page 15).

---

## Available Operations during Call

#### To adjust the ringtone volume

Rotate the volume dial while receiving a call.

#### To adjust the talker's voice volume

Rotate the volume dial during a call.

#### To adjust the volume for the other party (MIC gain adjustment)

Press ◀◀ during a call.

Adjustable volume levels: [MIC High], [MIC Low], [MIC Middle].

### To reduce echo and noise (Echo Canceler/ Noise Canceler Mode)

Press ►► during a call.

Settable mode: [ECNC 1], [ECNC 2].

### To switch between hands-free mode and handheld mode

During a call, press ►|| to switch the phone call audio between the unit and cellular phone.

#### Note

Depending on the cellular phone, this operation may not be available.

## Useful Functions

### SongPal with iPhone/Android smartphone

Downloading the latest version of “SongPal” application is required from the App Store for iPhone or from Google Play for Android smartphone.

#### Notes

- For your safety, follow your local traffic laws and regulations, and do not operate the application while driving.
- “SongPal” is an app for controlling Sony audio devices which are compatible with “SongPal”, by your iPhone/Android smartphone.
- What you can control with “SongPal” varies depending on the connected device.
- To make use of “SongPal” features, see the details on your iPhone/Android smartphone.
- For further details on “SongPal,” visit the following URL: <http://rd1.sony.net/help/speaker/songpal/>
- Visit the website below and check the compatible iPhone/Android smartphone models.  
For iPhone: visit the App Store  
For Android smartphone: visit Google Play

### Establishing the SongPal connection

**1** Make the BLUETOOTH connection with iPhone/Android smartphone (page 9).

**2** Launch the “SongPal” application.  
Connection to iPhone/Android smartphone starts.  
For details on the operations on iPhone/Android smartphone, see the help of the application.

#### If the device number appears

Make sure that the number is displayed (e.g., 123456), then select [Yes] on the iPhone/Android smartphone.

### Selecting the source or application

You can operate to select the desired source or application on iPhone/Android smartphone.

#### To select the source

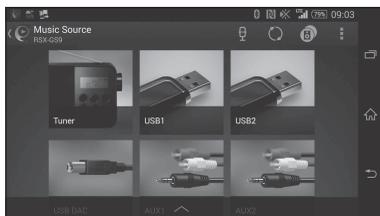

Press SOURCE repeatedly.

#### Note

While “Settings” is selected, the controls except for the volume on the unit and remote commander do not work. Operate your iPhone/Android smartphone.

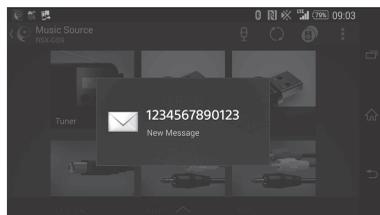

## To display the source list

Tap the source list icon on the “SongPal” application.

## Announcement of various information by voice guide (Android smartphone only)

When SMS, Twitter/Facebook/Calendar notifications, etc., are received, they are automatically announced through the audio device connected to FRONT AUDIO OUT.

For details on settings, refer to the help of the application.

## Replying a message of SMS (Android smartphone only)

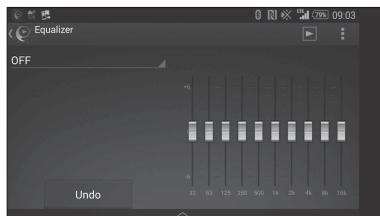

You can reply a message.

- 1 Tap the reply icon on the “SongPal” application. The message input display appears.
- 2 Input a reply message by voice recognition. The list of message candidates appears.
- 3 Tap the desired message. The message is sent out.

For details, refer to the help of the application.

## Making sound and display settings

You can adjust the settings relating to sound and display via iPhone/Android smartphone.

For details on settings, refer to the help of the application.

## Settings

### Basic Setting Operation

You can set items in the following setup categories: General setup (General), Sound setup (Sound), BLUETOOTH setup (BT Setting). Setting by “SongPal” is also available (page 15). (While the BT phone is selected, only the BLUETOOTH setup is available.)

Use the remote commander to perform the following.

- 1 Press and hold MENU, press **↑** or **↓** to select the setup category, then press ENTER.

The items that can be set differ depending on the source and settings.

- 2 Press **↑** or **↓** to select the options, then press ENTER.

### To return to the previous display

Press **↶**.

## General Setup (General)

### Clock Adjust (page 9)

#### Dimmer

Dims the display: [ON], [OFF], [Auto].

([Auto] is available only when the illumination control lead is connected, and turn on the head light).

#### Optical Out

Selects the optical output setting: [OFF], [48kHz], [96kHz].

(The volume control on the unit does not work when set to [48kHz] or [96kHz].)

### BTM (best tuning memory) (page 12)

(Available only when the tuner is selected.)

#### Firmware

(Available only while the source is off and the clock is displayed.)

Checks/updates the firmware version. For details, visit the support site on the back cover.

#### Version

Displays current firmware version.

#### Update

Enters firmware update process: [NO], [YES].

Updating the firmware takes a few minutes to complete. During the update, do not turn the ignition to the OFF position.

---

## Sound Setup (Sound)

This setup menu can also be opened by pressing SOUND. If [Optical Out] is set to [48kHz] or [96kHz], this setup menu is not available.

---

### Subwoofer

(Automatically set to [OFF] when [Optical Out] is set to [48kHz] or [96kHz].) (Not available during native DSD playback while USB-DAC is selected.)

#### Sub Level (subwoofer level)

Adjusts the subwoofer volume level: [+10dB] – [0dB] – [-10dB].

#### Sub Phase (subwoofer phase)

Selects the subwoofer phase: [Normal], [Reverse].

#### LPF Freq (low pass filter frequency)

Selects the subwoofer cut-off frequency: [OFF], [50Hz], [63Hz], [79Hz], [99Hz], [125Hz], [158Hz], [198Hz], [250Hz].

#### LPF Slope (low pass filter slope)

Selects the LPF slope (effective only when [LPF Freq] is set to other than [OFF]): [SLP1] (-12dB/oct), [SLP2] (-24dB/oct), [SLP3] (-36dB/oct), [SLP4] (-48dB/oct).

#### LPF Mode (low pass filter mode)

Sets the filter mode: [Mono], [Stereo].

#### HPF Freq (high pass filter frequency)

Selects the front/rear speaker cut-off frequency: [OFF], [50Hz], [63Hz], [79Hz], [99Hz], [125Hz], [158Hz], [198Hz], [250Hz].

#### HPF Slope (high pass filter slope)

Selects the HPF slope (effective only when [HPF Freq] is set to other than [OFF]): [SLP1] (-12dB/oct), [SLP2] (-24dB/oct), [SLP3] (-36dB/oct), [SLP4] (-48dB/oct).

---

### Sub DSD (subwoofer DSD)

(Available during native DSD playback while USB-DAC is selected.)

#### LPF Freq (low pass filter frequency)

Selects the subwoofer cut-off frequency: [OFF], [150Hz].

#### LPF Mode (low pass filter mode)

Sets the filter mode: [Mono], [Stereo].

---

### Pos Custom (position custom)

Sets [Custom] of [Pos Preset].

(Available when any source except for BT phone is selected.) (Automatically set to [OFF] when [Optical Out] is set to [48kHz] or [96kHz].)

#### Front Left, Front Right, Rear Left, Rear Right, Subwoofer

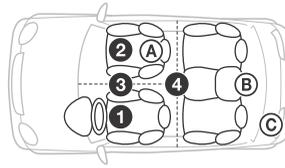

Sets the distance from your desired position to the speaker.

Adjustable range: [0] – [350] cm (0 – 11.5 ft) ([Subwoofer] is not available during native DSD playback while USB-DAC is selected.)

---

---

### Pos Preset (position preset)

#### F/R Pos (front/rear position)

Simulates a natural sound field by delaying the sound output from speakers to suit your position:

- 1 [Front Left],
  - 2 [Front Right],
  - 3 [Front],
  - 4 [ALL] (center of your car),
- [Custom] (position set in [Pos Custom]),  
[OFF] (no position set)

#### Adjust Pos\* (adjust position)

Fine-tunes the listening position setting: [+3] – [0] – [-3].

#### Subwoofer\* (subwoofer position)

- A [Near],
  - B [Normal],
  - C [Far]
- 

### EQ10 Preset

Selects an equalizer curve from 10 equalizer curves or off: [OFF], [R & B], [Rock], [Pop], [Dance], [Hip-Hop], [Electronica], [Jazz], [Soul], [Country], [Custom] (equalizer curve set by "SongPal").

The equalizer curve setting can be memorized for each source.

(Available when any source except for BT phone is selected.) (Automatically set to [OFF] when [Optical Out] is set to [48kHz] or [96kHz].) (Not available during native DSD playback while USB-DAC is selected.)

---

### Balance

Adjusts the sound balance: [R-15] – [Center] – [L-15].

(Available when any source except for BT phone is selected.) (Automatically set to [OFF] when [Optical Out] is set to [48kHz] or [96kHz].)

---

### Fader

Adjusts the relative level: [F-15] – [Center] – [R-15].

(Available when any source except for BT phone is selected.) (Automatically set to [OFF] when [Optical Out] is set to [48kHz] or [96kHz].)

---

### Loudness

Reinforces bass and treble for clear sound at low volume levels: [OFF], [ON].

(Not available during native DSD playback while USB-DAC is selected.)

---

---

**DSEE HX** (digital sound enhancement engine HX)

Improves digitally compressed sound by restoring high frequencies lost in the compression process.

This setting can be memorized for each source other than the tuner or AUX.

Selects the DSEE HX mode: [OFF], [ON].

(Available only when USB1, USB2, USB-DAC or BT Audio is selected.) (Automatically set to [OFF] when [Optical Out] is set except for [OFF].) (Not available during native DSD playback while USB-DAC is selected.)

---

**AUX Level** (for AUX1 only)

Adjusts the volume level for each connected auxiliary device: [+18dB] – [0dB] – [-8dB].

This setting negates the need to adjust the volume level between sources.

---

\* Does not appear when [F/R Pos] is set to [OFF].

---

## BLUETOOTH Setup (BT Setting)

---

**BT Signal** (BLUETOOTH signal) (page 10)

Activates/deactivates the BLUETOOTH function.

---

**Pairing** (BLUETOOTH pairing) (page 10)**BTA Level** (BLUETOOTH audio level)

Adjusts the volume level for each connected BLUETOOTH device: [+6dB] – [0dB] – [-6dB]. This setting negates the need to adjust the volume level between sources.

---

**Audio Codec**

Selects the BLUETOOTH audio codec type:

[AUTO] (LDAC, AAC, SBC), [SBC].

(Not available via "SongPal".)

---

**Auto Answer**

Sets this unit to answer an incoming call automatically: [OFF], [3sec], [10sec].

---

**Ring Tone**

Selects whether this unit or the connected cellular phone outputs the ringtone: [TONE 1] (this unit), [TONE 2] (cellular phone).

---

**BT Initialize**

Initializes all the BLUETOOTH related settings (pairing information, device information, etc.): [NO], [YES].

When disposing the unit, initialize all the settings.

---

## Optical output setting and available sound settings

Available sound settings differ depending on the optical output setting and the selected source.

	Optical Out	Tuner	USB1 (front), USB2 (rear)	USB-DAC (PCM)	USB-DAC (DSD)	AUX1 (front)	AUX2 (High level input)	BT Audio	BT Phone

\* Only [Subwoofer] in [Pos Custom] is not available.

## Additional Information

### Updating the Firmware

To update the firmware, visit the support site on the back cover, then follow the online instructions. Updating the firmware takes a few minutes to complete. During the update, do not turn the ignition to the OFF position.

#### Note

Using a USB device (not supplied) is required for updating the firmware. Store the updater in the USB device, and connect the device to the USB1 (front) port, then perform the update operation. The USB2 (rear) port cannot be used for the update.

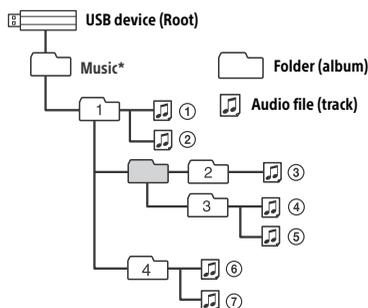

### Precautions

- Cool off the unit beforehand if your car has been parked in direct sunlight.
- Do not leave audio devices brought in inside the car, or it may cause malfunction due to high temperature in direct sunlight.
- Power antenna (aerial) extends automatically depending on the type of car.
- When using the unit in a cold area, the rotation of the volume dial may feel a little heavy.

#### To maintain high sound quality

Do not splash liquid onto the unit.

### Playback order of audio files

\* For the name of "Music" folder under the root directory, there are no restrictions for using upper or lower case letters. ("Music", "music" and "MUSIC" are valid.)

### About iPod

- You can connect to the following iPod models. Update your iPod devices to the latest software before use.

Compatible iPhone/iPod models

Compatible Model	Bluetooth®	USB
iPhone 6 Plus	✓	✓
iPhone 6	✓	✓
iPhone 5s	✓	✓
iPhone 5c	✓	✓
iPhone 5	✓	✓
iPhone 4s	✓	✓
iPhone 4	✓	✓
iPhone 3GS	✓	✓
iPhone 3G		✓
iPod touch (5th generation)	✓	✓
iPod touch (4th generation)	✓	✓
iPod touch (3rd generation)		✓
iPod touch (2nd generation)		✓
iPod classic		✓
iPod nano (7th generation)		✓
iPod nano (6th generation)		✓
iPod nano (5th generation)		✓
iPod nano (4th generation)		✓
iPod nano (3rd generation)		✓

- "Made for iPod," and "Made for iPhone," mean that an electronic accessory has been designed to connect specifically to iPod or iPhone, respectively, and has been certified by the developer to meet Apple performance standards. Apple is not responsible for the operation of this device or its compliance with safety and regulatory standards. Please note that the use of this accessory with iPod or iPhone may affect wireless performance.

If you have any questions or problems concerning your unit that are not covered in this manual, consult your nearest Sony dealer.

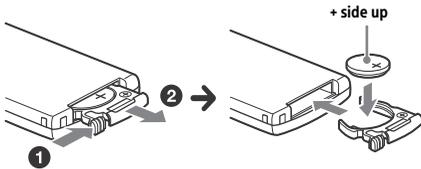

# Maintenance

## Replacing the lithium battery of the remote commander

Under normal conditions, the battery will last approximately 1 year. (The service life may be shorter, depending on the conditions of use.) When the battery becomes weak, the range of the remote commander becomes shorter.

### CAUTION

Danger of explosion if battery is incorrectly replaced. Replaced only with the same or equivalent type.

### Notes on the lithium battery

- Keep the lithium battery out of the reach of children. Should the battery be swallowed, immediately consult a doctor.
- Wipe the battery with a dry cloth to ensure a good contact.
- Be sure to observe the correct polarity when installing the battery.
- Do not hold the battery with metallic tweezers, otherwise a short-circuit may occur.

# Specifications

**FOR THE CUSTOMERS IN THE USA. NOT APPLICABLE IN CANADA, INCLUDING IN THE PROVINCE OF QUEBEC.**

**POUR LES CLIENTS AUX ÉTATS-UNIS. NON APPLICABLE AU CANADA, Y COMPRIS LA PROVINCE DE QUÉBEC.**

## Tuner section

### FM

Tuning range: 87.5 – 107.9 MHz

Antenna (aerial) terminal:

External antenna (aerial) connector

Intermediate frequency:

FM CCIR: -1,956.5 to -487.3 kHz and +500.0 to +2,095.4 kHz

Usable sensitivity: 8 dBf

Selectivity: 75 dB at 400 kHz

Signal-to-noise ratio: 73 dB

Separation: 50 dB at 1 kHz

Frequency response: 20 – 15,000 Hz

### AM

Tuning range: 530 – 1,710 kHz

Antenna (aerial) terminal:

External antenna (aerial) connector

Sensitivity: 26 µV

## USB Player section

Interface: USB (High-speed)

Maximum current: 1.5 A (USB BC1.2 compliant)

The maximum number of recognizable folders: 997 (including the "Music" folder under the root directory)

The maximum number of recognizable tracks: 10,000

Corresponding codec:

MP3 (.mp3):

16/22.05/24/32/44.1/48 kHz, 16 – 320 kbps (CBR/VBR)

AAC (.m4a, .mp4, .3gp):

16/22.05/24/32/44.1/48/88.2/96 kHz, 16 – 320 kbps (CBR/VBR)

WMA (.wma):

32/44.1/48 kHz, 16 – 320 kbps (CBR/VBR)

WAV (.wav):

16/22.05/24/32/44.1/48/88.2/96/176.4/192 kHz (16/24 bit)

AIFF (.aiff, .aif):

32/44.1/48/88.2/96/176.4/192 kHz (16/24 bit)

FLAC (.flac):

16/22.05/24/32/44.1/48/88.2/96/176.4/192 kHz (16/24 bit)

ALAC (.m4a):

16/22.05/24/32/44.1/48/88.2/96/176.4/192 kHz (16/24 bit)

DSD (DSF/DSDIFF)\* (.dsf, .dff): 2.8 MHz (1 bit)

\* via the USB type-A port, PCM conversion is performed during playback.

## USB-DAC Player section

Interface: USB micro B

Signal-to-noise ratio: 117 dB (at 1 kHz)

Frequency response: 20 Hz – 90 kHz (-3 dB)

Harmonic distortion: 0.007 % or less (at 1 kHz)

Corresponding data interface, sampling frequency and bit depth:

PCM: Max. 192 kHz/24 bit

DSD:

ASIO Native: 2.8 MHz/1 bit, 5.6 MHz/1 bit

DoP: 2.8 MHz/1 bit, 5.6 MHz/1 bit

## Wireless Communication

Communication System:

BLUETOOTH Standard version 3.0

Output:

BLUETOOTH Standard Power Class 2 (Max. +4 dBm)

Maximum communication range:

Line of sight approx. 7 m (23 ft)\*1

Frequency band:

2.4 GHz band (2.4000 – 2.4835 GHz)

Modulation method: FHSS

Compatible BLUETOOTH Profiles\*2:

- A2DP (Advanced Audio Distribution Profile) 1.3
- AVRCP (Audio Video Remote Control Profile) 1.5
- HFP (Handsfree Profile) 1.6
- SPP (Serial Port Profile)

Corresponding codec:

SBC (.sbc), AAC (.m4a) and LDAC (.ldac)

- \*1 The actual range will vary depending on factors such as obstacles between devices, magnetic fields around a microwave oven, static electricity, reception sensitivity, antenna (aerial)'s performance, operating system, software application, etc.
- \*2 BLUETOOTH standard profiles indicate the purpose of BLUETOOTH communication between devices.

## General

DAC (Digital Audio Converter) device: ES9018S by ESS Technology, Inc.

Outputs:

- Audio outputs terminal (FRONT, REAR, SUB)
- Power antenna (aerial)/Power amplifier control terminal (REM OUT)
- Optical output terminal

Inputs:

- High level input terminal (3 V – 12 V)
- Remote controller input terminal
- Antenna (aerial) input terminal
- MIC input terminal
- AUX input jack (stereo mini jack)
- USB type-A port (front, rear)
- USB micro-B port

Power requirements: 12 V DC car battery (negative ground (earth))

Rated current consumption: 10 A

Dimensions:

Approx. 178 mm × 50 mm × 167 mm  
(7 1/8 in × 2 in × 6 5/8 in) (w/h/d)

Mounting dimensions:

Approx. 182 mm × 53 mm × 154 mm  
(7 1/4 in × 2 1/8 in × 6 1/8 in) (w/h/d)

Mass: Approx. 1.5 kg (3 lb 3 oz)

Package contents:

- Main unit (1)
- Remote commander (1): RM-X261
- Microphone (1)
- Parts for installation and connections (1 set)
- USB cable (1)

Design and specifications are subject to change without notice.

---

## Troubleshooting

The following checklist will help you remedy problems you may encounter with your unit. Before going through the checklist below, check the connection and operating procedures. For details on using the fuse and removing the unit from the dashboard, see "Connection/Installation" (page 27). If the problem is not solved, visit the support site on the back cover.

---

### General

---

#### **No power is being supplied to the unit.**

- If the unit is turned off and the display disappears, the unit cannot be operated with the remote commander.
  - Turn on the unit by pressing SRC on the unit.

---

#### **No sound or the sound is very low.**

- The position of the fader control [Fader] is not set for a 2-speaker system.
- The volume of the unit and/or connected device is very low.
  - Increase the volume of the unit and connected device.

---

#### **The contents of the memory have been erased.**

- The reset button has been pressed.
  - Store again into the memory.
- The power supply lead or battery has been disconnected or not connected properly.

---

#### **Stored stations and correct time are erased.**

#### **The fuse has blown.**

#### **Makes a noise when the position of the ignition is switched.**

- The leads are not matched correctly with the car's accessory power connector.

---

#### **The display disappears from/does not appear in the display window.**

- [Dimmer] (dimmer) is set to [ON] (page 16).
- The display disappears if you press and hold OFF.
  - Press and hold SRC on the unit until the display appears.

---

#### **The operation buttons do not function.**

- The connection is not correct.
    - Check the connection of the unit.
      - If the situation does not improve, press reset button (page 9).
      - The contents stored in memory are erased.
- For your safety, do not reset the unit while you are driving.

## Radio reception

### Stations cannot be received.

#### The sound is hampered by noises.

- The connection is not correct.
  - If your car has built-in radio antenna (aerial) in the rear/side glass, connect an REM OUT lead (blue/white striped) or accessory power supply lead (red) to the power supply lead of a car's antenna (aerial) booster.
  - Check the connection of the car antenna (aerial).
  - If the auto antenna (aerial) will not extend, check the connection of the power antenna (aerial) control lead.

### Preset tuning is not possible.

- The broadcast signal is too weak.

## USB device playback

### You cannot play items via a USB hub.

- This unit cannot recognize USB devices via a USB hub.

### A USB device takes longer to play.

- The USB device contains many files or a complicated file structure.

### The sound is intermittent.

- The sound may be intermittent at a high-bit-rate.
- DRM (Digital Rights Management) files may not be playable in some cases.

### Audio file cannot be played.

- USB device formatted with file systems other than FAT16, FAT32 or exFAT are unsupported.\*

\* This unit supports FAT16, FAT32 and exFAT, but some USB device may not support all of these FAT. For details, refer to the operating instruction of each USB device or contact the manufacturer.

### You cannot skip to the next or previous track.

- While [\*] is displayed after connecting the USB device, the unit is busy with reading the file structure of the device. Wait until reading is complete.

### The sampling frequency and bit depth are not displayed, or unmatched sampling frequency and bit depth are displayed.

- Check that the contents on the USB device contain the information on the sampling frequency and bit depth.
- Wait for a while, then press DSPL again. Reading the information may take some time.
- When an iPod/iPhone is connected to USB1 or USB2, the sampling frequency and bit depth are not displayed.

## USB DAC playback

### No sound.

- Check that the High-Resolution USB Audio supported device and the unit are properly connected.
- Check that the settings of the High-Resolution USB Audio supported device are properly made.

### The sampling frequency and bit depth are not displayed, or unmatched sampling frequency and bit depth are displayed.

- Check that the settings of the High-Resolution USB Audio supported device and the audio playback software or application are properly made.
- Wait for a while, then press DSPL again. Reading the information may take some time.
- Depending on the audio playback software or application, the bit depth appears on the display may differ from the actual bit depth of the audio file.

## Computer operation

### No sound or the sound is not output properly.

- The unit does not recognize the computer as a USB device.
  - Restart your computer.
  - Install the driver software "Sony USB Device Driver" on your Windows computer if not installed. For details on the driver software, visit the support site on the back cover. For the installation, refer to the help guide of your computer.
- Turn up the volume of your computer or software.
- The computer is connected to the unit while audio playback software is in use.
  - Restart the audio playback software on the computer.
- Check that the audio playback software being used is compatible with the High-Resolution Audio files. Using "Hi-Res Audio Player" or "Media Go" is recommended. For details, visit the support site on the back cover.
- The computer enters standby, sleep or hibernation mode during playback.
  - Restart the audio playback software on the computer.
- Check that the sound device settings of your computer are properly made. For details, refer to the manual supplied with your computer.
- Cancel the sound attenuation of your computer or the audio playback software.
- Check that the CD-ROM drive supporting the digital reproduction function is used.

## NFC function

### One touch connection (NFC) is not possible.

- The BLUETOOTH signal of this unit is not turned on.
  - Press and hold MENU on the remote commander, select [BT Setting] → [BT Signal], then press ENTER.
- If the smartphone does not respond to the touching.
  - Check that the NFC function of the smartphone is turned on.
  - Move the N-Mark part of the smartphone closer to the N-Mark part on this unit.
  - If the smartphone is in a case, remove it.
- NFC receiving sensitivity depends on the device. If One touch connection with the smartphone fails several times, make BLUETOOTH connection manually.

## BLUETOOTH function

### The connecting device cannot detect this unit.

- Before the pairing is made, set this unit to pairing standby mode.
- While connected to a BLUETOOTH device, this unit cannot be detected from another device.
  - Disconnect the current connection and search for this unit from another device.
- When the device pairing is made, set the BLUETOOTH signal output to on (page 10).

### Connection is not possible.

- The connection is controlled from one side (this unit or BLUETOOTH device), but not both.
  - Connect to this unit from a BLUETOOTH device or vice versa.

### The name of the detected device does not appear.

- Depending on the status of the other device, it may not be possible to obtain the name.

### No ringtone.

- Adjust the volume by rotating the volume dial while receiving a call.
- Depending on the connecting device, the ringtone may not be sent properly.
  - Set [Ring Tone] to [TONE 1] (page 18).
- The ringtone is output only from an audio device connected to FRONT AUDIO OUT.
  - Connect an audio device to FRONT AUDIO OUT of the unit.

### The talker's voice cannot be heard.

- The talker's voice is output only from an audio device connected to FRONT AUDIO OUT.
  - Connect an audio device to FRONT AUDIO OUT of the unit.

### A call partner says that the volume is too low or high.

- Adjust the volume accordingly using mic gain adjustment (page 14).

### Echo or noise occurs in phone call conversations.

- Lower the volume.
- Set EC/NC Mode to [ECNC 1] or [ECNC 2] (page 15).
- If the ambient noise other than the phone call sound is loud, try reducing this noise.  
E.g.: If a window is open and road noise, etc., is loud, shut the window. If an air conditioner is loud, lower the air conditioner.

### The phone sound quality is poor.

- Phone sound quality depends on reception conditions of cellular phone.
  - Move your car to a place where you can enhance the cellular phone's signal if the reception is poor.

### The volume of the connected audio device is low (high).

- Volume level will differ depending on the audio device.
  - Adjust the volume of the connected audio device or this unit.

### The sound skips during playback of a BLUETOOTH audio device.

- Reduce the distance between the unit and the BLUETOOTH audio device.
- If the BLUETOOTH audio device is stored in a case which interrupts the signal, remove the audio device from the case during use.
- Several BLUETOOTH devices or other devices which emit radio waves are in use nearby.
  - Turn off the other devices.
  - Increase the distance from the other devices.
- The playback sound stops momentarily when the connection between this unit and the cellular phone is being made. This is not a malfunction.

### The connected BLUETOOTH audio device cannot be controlled.

- Check that the connected BLUETOOTH audio device supports AVRCP.

### Some functions do not work.

- Check if the connecting device supports the functions in question.

### A call is answered unintentionally.

- The connecting phone is set to answer a call automatically.

### Pairing failed due to a timeout.

- Depending on the connecting device, the time limit for pairing may be short.
  - Try completing the pairing within the time.

---

**BLUETOOTH function cannot operate.**

- Turn off the unit by pressing OFF for more than 2 seconds, then turn the unit on again.

---

**No sound is output from the car speakers during handsfree call.**

- If the sound is output from the cellular phone, set the cellular phone to output the sound from the car speakers.

---

**SongPal operation**

---

**Application name is mismatched with the actual application in "SongPal".**

- Launch the application again from the "SongPal" application.

---

**While running the "SongPal" application via BLUETOOTH, the display automatically switches to [BT Audio].**

- The "SongPal" application or BLUETOOTH function has failed.
- Run the application again.

---

**The "SongPal" application is automatically disconnected when the display switches to [iPod1] or [iPod2].**

- The "SongPal" application on iPhone/iPod does not support iPod playback.
  - Change the source of the unit to other than [iPod1] or [iPod2], then establish the "SongPal" connection (page 15).

---

**Error displays/Messages**

---

**For USB device playback**

---

**Device Error:** The USB device cannot be played.

- Connect the USB device again.

---

**No Device:** A USB device is not connected or recognized.

- Make sure the USB device or USB cable is securely connected.
- A USB device in MTP mode is not available.
  - Set the USB connection mode to MSC.

---

**No Music:** There is no playable file.

- Connect a USB device containing playable files (page 21).
- Check that the "Music" folder is located directly under the root directory of the USB device and that playable files are stored in the folder.

---

**No Output:** Sound signals are not output from the OPTICAL OUT terminal.

- No sound is output from the OPTICAL OUT while native DSD playback is performed via the USB micro-B port.

---

**No Support:** The USB device is not supported.

- For details on the compatibility of your USB device, visit the support site on the back cover.
- USB hubs are not supported.

---

**Overload:** The USB device is overloaded.

- Disconnect the USB device, then press SRC to select another source.
- The USB device has a fault, or an unsupported device is connected.

---

**Please Wait:** Now reading information.

- Wait until reading is complete and playback starts automatically. This may take some time depending on the file organization.

---

**For BLUETOOTH function:**

---

**No Device:** The BLUETOOTH device is not connected or recognized.

- Make sure the BLUETOOTH device is securely connected, or the BLUETOOTH connection is established with the BLUETOOTH device.

---

**For SongPal operation:**

---

**APP List:** The contents list of the USB is open.

- Exit the list of the application to enable button operation.

---

**APP Menu:** A setting display of the application is open.

- Exit the setting display of the application to enable button operation.

---

**Disconnect:** The application is disconnected.

- Make the "SongPal" connection (page 15).

---

**Open APP:** The "SongPal" application is not running.

- Launch the application.

---

**Settings:** A sound setting, general setting or BLUETOOTH setting display of the application is open.

- Exit the setting display of the application to enable button operation.

---

If these solutions do not help improve the situation, consult your nearest Sony dealer.

## Connection/Installation

### Cautions

- Run all ground (earth) leads to a common ground (earth) point.
- Do not get the leads trapped under a screw, or caught in moving parts (e.g., seat railing).
- Before making connections, turn the car ignition off to avoid short circuits.
- When making power connections, be sure to connect the connector ⑤ first, then the connector ⑥.
- Connect the **yellow** and **red** power supply leads only after all other leads have been connected.
- Be sure to insulate any loose unconnected leads with electrical tape for safety.

### For your safety

To prevent a traffic accident, make sure that the connected cables do not interfere with the air-bag system or driving operation.

### Precautions

- Choose the installation location carefully so that the unit will not interfere with normal driving operations.
- Avoid installing the unit in areas subject to dust, dirt, excessive vibration, or high temperature, such as in direct sunlight or near heater ducts.
- Use only the supplied mounting hardware for a safe and secure installation.

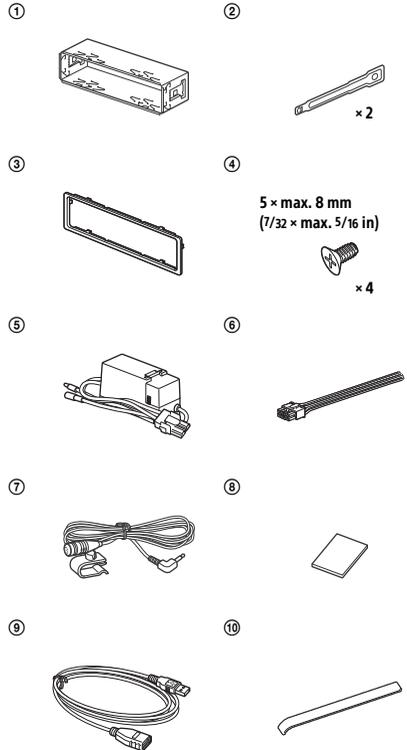

### Note on the power supply lead (yellow)

When connecting this unit in combination with other stereo components, the amperage rating of the car circuit to which the unit is connected must be higher than the sum of each component's fuse amperage rating.

### Mounting angle adjustment

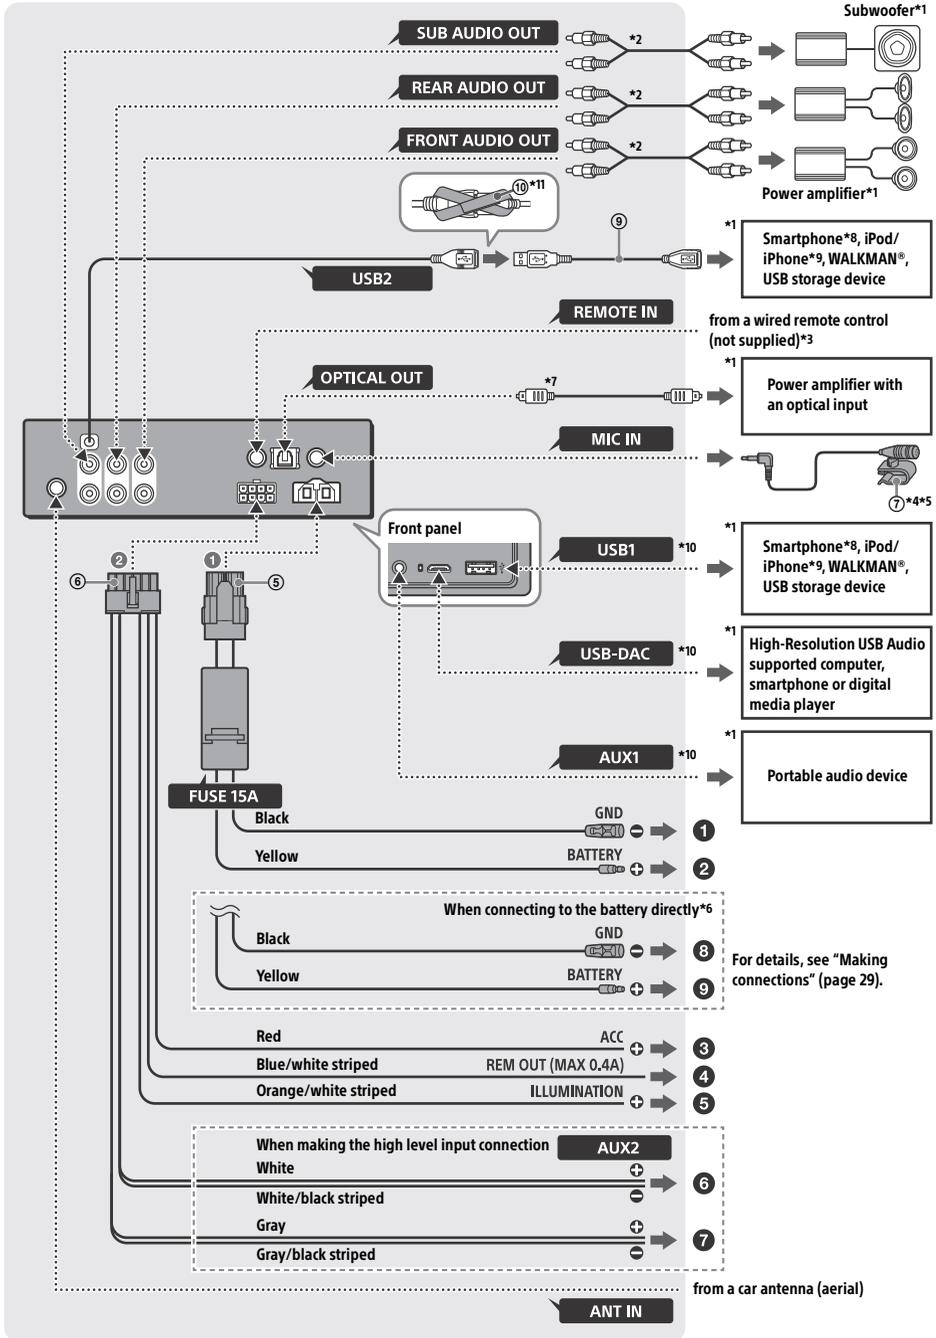

Adjust the mounting angle to less than 45°.

## Parts List for Installation

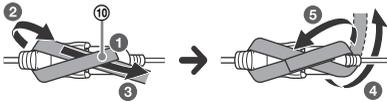

- This parts list does not include all the package contents.
- The bracket ① and the protection collar ③ are attached to the unit before shipping. Before mounting the unit, use the release keys ② to remove the bracket ① from the unit. For details, see "Removing the protection collar and the bracket" (page 31).
- Keep the release keys ② for future use as they are also necessary if you remove the unit from your car.

# Connection

- \*1 Not supplied
- \*2 RCA pin cord (not supplied)
- \*3 Depending on the type of car, use an adaptor for a wired remote control (not supplied).
- \*4 Whether in use or not, route the microphone input cord such that it does not interfere with driving operations. Secure the cord with a clamp, etc., if it is installed around your feet.
- \*5 For details on installing the microphone, see "Installing the microphone" (page 30).
- \*6 When the amperage rating of the fuse used on your car is 10 A, make the power connection to the battery directly to avoid short circuits.
- \*7 When making the optical connection, an optical cable (not supplied) is required.
- \*8 To connect a smartphone to the main unit, an appropriate cable (not supplied) is required.
- \*9 To connect an iPod/iPhone, use the USB connection cable for iPod (not supplied).
- \*10 For details on the connection, see "Guide to Audio Device Connection" (page 7).
- \*11 To secure the connectors, wrap the hook and loop fastener ⑩ around the neck of connectors, then bring the ends of the hook and loop fastener together.

## Making connections

- 1 To a common ground (earth) point**  
First connect the black ground (earth) lead, then connect the yellow and red power supply leads.
- 2 To the +12 V power terminal which is energized at all times**  
Be sure to first connect the black ground (earth) lead to a common ground (earth) point.
- 3 To the +12 V power terminal which is energized when the ignition switch is set to the accessory position**  
If there is no accessory position, connect to the +12 V power (battery) terminal which is energized at all times.  
Be sure to first connect the black ground (earth) lead to a common ground (earth) point.
- 4 To the power antenna (aerial) control lead or the power supply lead of the antenna (aerial) booster**  
It is not necessary to connect this lead if there is no power antenna (aerial) or antenna (aerial) booster, or with a manually-operated telescopic antenna (aerial).  
**To AMP REMOTE IN of an optional power amplifier**  
This connection is only for amplifiers and a power antenna (aerial). Connecting any other system may damage the unit.

- 5 To a car's illumination signal**  
Be sure to first connect the black ground (earth) lead to a common ground (earth) point.

### When making the high level input connection

For details, see "High level input connection" (page 30).

- 6 To the left speaker output (white) of an audio device**
- 7 To the right speaker output (gray) of an audio device**

### When connecting to the battery directly

When the amperage rating of the fuse used on your car is 10 A, make the power connection to the battery directly to avoid short circuits.

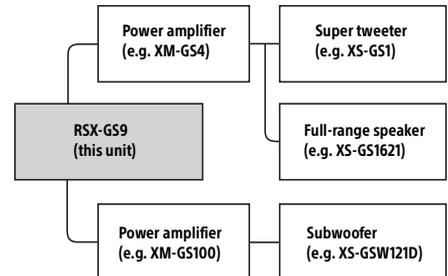

- 8 To a metal point of car**
- 9 To the positive battery terminal**

#### Notes

- Despite connecting to the power supply lead of the car, the unit may not fully provide its performance due to insufficient power. In this case, make the power connection to the battery directly.
- Make sure that the car's battery wires connected to the car (ground (earth) to chassis) are of a wire gauge at least equal to that of the main power wire connected from the battery to the head unit.

If you have any questions or problems concerning the connection, consult the dealer for details.

## Recommended High-Resolution USB Audio system

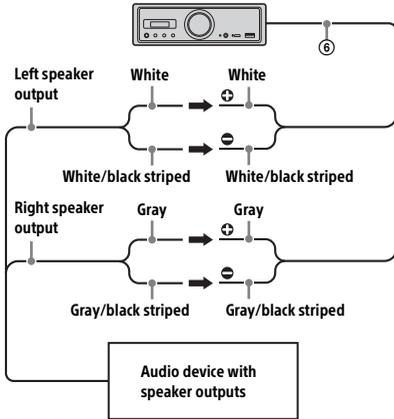

#### Note

Certain products shown in the diagram may not be available in your country or region.

## High level input connection

For details on the connection, refer to the manual supplied with your audio device.

## Optical connection

- This OPTICAL OUT is designed for connecting a power amplifier with an optical input. When another digital device is connected, the functions of the device may not work properly.
- When making connections, do not bend the optical cable (not supplied). Doing so may prevent output of sound.
- When the optical connection is made:
  - set [Optical Out] to [48kHz] or [96kHz] to enable.
  - the volume controls on the unit and the remote commander do not work.
  - [Subwoofer], [Pos Custom], [Pos Preset], [EQ10 Preset], [Balance], [Fader], [Loudness] and [DSEE HX] are automatically set to [OFF].
  - No sound is output while native DSD playback is performed via the USB micro-B port.

## Power amplifier connection

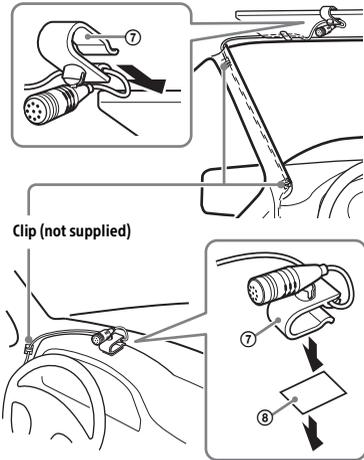

Stop using the unit and the power amplifier that is not supported a High-Resolution Audio, when unusual noise is generated.

## Memory hold connection

When the yellow power supply lead is connected, power will always be supplied to the memory circuit even when the ignition switch is turned off.

## Installing the microphone

To capture your voice during handsfree calling, you need to install the microphone (7).

## Cautions

- It is extremely dangerous if the cord becomes wound around the steering column or gearstick. Be sure to keep it and other parts from interfering with your driving operations.
- If airbags or any other shock-absorbing equipment is in your car, contact the store where you purchased this unit, or the car dealer, before installation.

## Note

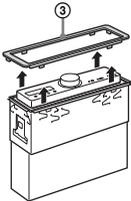

Before attaching the double-sided tape (8), clean the surface of the dashboard with a dry cloth.

# Installation

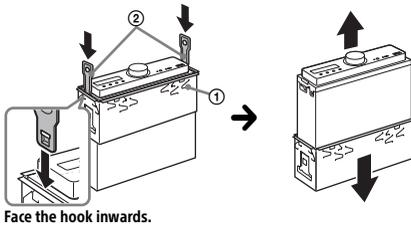

## Removing the protection collar and the bracket

Before installing the unit, remove the protection collar ③ and the bracket ① from the unit.

- 1 Pinch both edges of the protection collar ③, then pull it out.

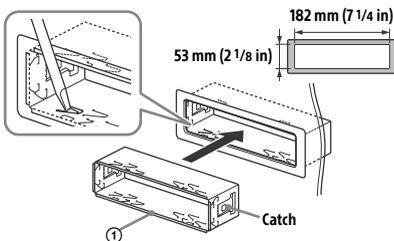

- 2 Insert both release keys ② until they click, and pull down the bracket ①, then pull up the unit to separate.

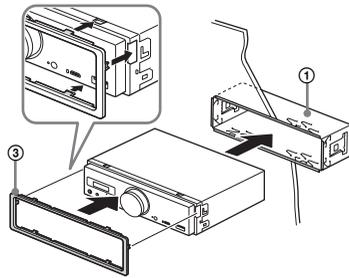

## Mounting the unit in the dashboard

Before installing, make sure the catches on both sides of the bracket ① are bent inwards 2 mm (3/32 in). When mounting in a Japanese car, see "Mounting the unit in a Japanese car" (page 31).

- 1 Position the bracket ① inside the dashboard, then bend the claws outward for a tight fit.

- 2 Mount the unit onto the bracket ①, then attach the protection collar ③.

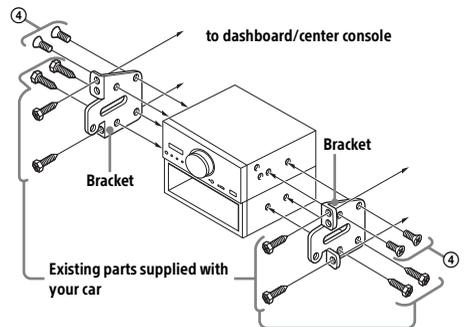

### Notes

- If the catches are straight or bent outwards, the unit will not be installed securely and may spring out.
- Make sure the 4 catches on the protection collar ③ are properly engaged in the slots of the unit.

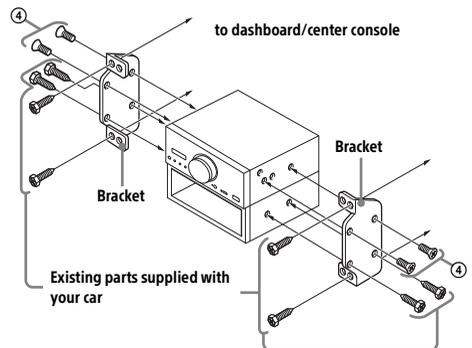

## Mounting the unit in a Japanese car

You may not be able to install this unit in some makes of Japanese cars. In such a case, consult your Sony dealer.

### TOYOTA

### NISSAN

**Note**

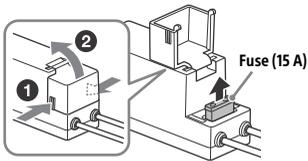

To prevent malfunction, install only with the supplied screws ④.

## Resetting the unit

For details, see “Resetting the Unit” (page 9).

## Fuse replacement

When replacing the fuse, be sure to use one matching the amperage rating stated on the original fuse. If the fuse blows, check the power connection and replace the fuse. If the fuse blows again after replacement, there may be an internal malfunction. In such a case, consult your nearest Sony dealer.

**Note**

Use an appropriate tool to replace a fuse.

Pour plus de sécurité, installez cet appareil dans le tableau de bord du véhicule, car la partie supérieure de l'appareil devient chaude en cours de fonctionnement.  
Pour plus de détails, reportez-vous à la section « Raccordement/Installation » (page 30).

La plaque signalétique indiquant la tension d'alimentation, etc. se trouve sur le dessous du châssis.

---

## Avertissement

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- (1) l'appareil ne doit pas produire de brouillage;
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Cet équipement ne doit pas être placé au même endroit ni utilisé avec une autre antenne ou un autre émetteur.

Cet équipement est conforme aux limites d'exposition aux rayonnements énoncées pour un environnement non contrôlé et respecte les règles des radioélectriques (RF) de la FCC lignes directrices d'exposition et d'exposition aux fréquences radioélectriques (RF) CNR-102 de l'IC. Cet équipement émet une énergie RF très faible qui est considérée conforme sans évaluation de l'exposition maximale autorisée. Cependant, cet équipement doit être installé et utilisé en gardant une distance de 20 cm ou plus entre le dispositif rayonnant et le corps.

### Remarque sur la pile au lithium

N'exposez pas la pile à une chaleur excessive comme à la lumière directe du soleil, au feu ou autre.

### Avis d'exclusion de responsabilité relatif aux services proposés par des tiers

Les services proposés par des tiers peuvent être modifiés, suspendus ou clôturés sans avis préalable. Sony n'assume aucune responsabilité dans ce genre de situation.

## Avis important

### Attention

SONY NE PEUT EN AUCUN CAS ÊTRE TENU RESPONSABLE DE TOUT DOMMAGE DIRECT, INDIRECT OU CONSÉCUTIF OU DE TOUT AUTRE DOMMAGE, Y COMPRIS, SANS LIMITATION, TOUTE PERTE DE PROFITS, DE REVENU, DE DONNÉES, D'UTILISATION DU PRODUIT OU DE TOUT APPAREIL ASSOCIÉ, DE DISPONIBILITÉ ET DE TEMPS DE L'UTILISATEUR LIÉE À OU DÉCOULANT DE L'UTILISATION DE CE PRODUIT, MATÉRIEL ET/OU LOGICIEL.

Cher client, ce produit comprend un émetteur radio. Veuillez consulter le mode d'emploi de votre véhicule ou contacter le constructeur ou le concessionnaire de votre véhicule avant d'installer ce produit dans votre véhicule.

### Appels d'urgence

Cet appareil mains libres BLUETOOTH et l'appareil électronique connecté au système mains libres fonctionnent grâce à des signaux radio, des réseaux cellulaires et terrestres, ainsi que des fonctions programmées par l'utilisateur, qui ne peuvent garantir la connexion dans toutes les conditions.

Par conséquent, ne vous fiez pas uniquement sur les périphériques électroniques pour vos communications importantes (telles que les urgences médicales).

### Communication BLUETOOTH

- Les émissions d'hyperfréquences d'un périphérique BLUETOOTH peuvent perturber le fonctionnement des appareils médicaux électroniques. Pour éviter de causer un accident, éteignez cet appareil et les autres périphériques BLUETOOTH dans les endroits suivants :
  - endroits où du gaz inflammable est présent, dans un hôpital, un train, un avion ou une station-service
  - à proximité de portes automatiques ou d'un avertisseur d'incendie
- Cet appareil prend en charge les capacités de sécurité conformes à la norme BLUETOOTH pour offrir une connexion sécurisée lors de l'utilisation de la technologie BLUETOOTH sans fil; cependant, la sécurité peut être insuffisante selon le réglage. Soyez prudent lorsque vous communiquez au moyen de la technologie BLUETOOTH sans fil.
- Nous ne pouvons être tenus responsables de la fuite d'informations lors d'une communication BLUETOOTH.

Si vous avez des questions ou des problèmes concernant cet appareil qui ne sont pas abordés dans ce mode d'emploi, contactez votre détaillant Sony le plus proche.

# Guide des pièces et commandes

## Appareil principal

- Dans ce manuel, les procédures sont expliquées principalement pour la télécommande, sauf mention contraire.
- Les touches disponibles s'allument en fonction de la source sélectionnée.

### 1 Récepteur de télécommande

### 2 Fenêtre d'affichage

### 3 Molette de volume

Tournez pour régler le volume.

#### **Symbole N**

Touchez ce symbole avec un téléphone intelligent compatible NFC pour établir une connexion Bluetooth®.

### 4 SRC (source)

Permet de mettre l'appareil en marche.  
Permet de changer la source.

#### **— OFF**

Appuyez sur la touche et maintenez-la enfoncée pendant 1 seconde pour désactiver la source et afficher l'horloge.

Appuyez sur la touche et maintenez-la enfoncée pendant plus de 2 secondes pour éteindre l'appareil et l'affichage.

Si l'appareil est éteint et que l'affichage disparaît, le fonctionnement par télécommande est désactivé.

### 5 ◀◀/▶▶ (précédente/suivante)

USB1/USB2 : Permettent de sauter des plages.  
Tuner : Permettent de capter des stations de radio mémorisées.

#### **—▼/—▲ (album -/+)**

USB1/USB2 : Appuyez sur la touche et maintenez-la enfoncée pour sauter des albums.  
Tuner : Appuyez sur la touche et maintenez-la enfoncée pour syntoniser automatiquement une station de radio.

### 6 ▶|| (lecture/pause)

USB1/USB2 : Permet de démarrer/suspendre la lecture. Pendant que la lecture est suspendue, l'éclairage de l'appareil clignote.  
Tuner : Permet de changer la bande.

#### **— PAIRING (page 10)**

Appuyez sur la touche et maintenez-la enfoncée pendant 2 secondes pour passer en mode de veille de pairage BLUETOOTH.

### 7 Indicateur BLUETOOTH

### 8 Touche de réinitialisation (page 9)

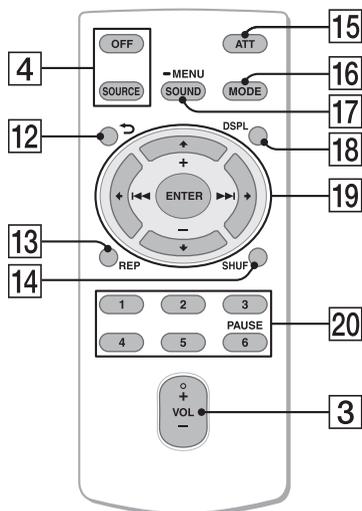

### 9 Prise d'entrée AUX

### 10 Port USB micro-B (pour USB-DAC)

### 11 Port USB type-A (pour USB1)

Le chargement du périphérique raccordé (charge élevée USB) est également pris en charge.

## Télécommande RM-X261

La touche VOL (volume) + comporte un point tactile.

### 12 ↶ (retour)

Permet de retourner à l'écran précédent.

### 13 REP (répétition)

### 14 SHUF (aléatoire)

### 15 ATT (atténuation)

Permet d'atténuer le son. Appuyez de nouveau pour annuler l'atténuation.

### 16 MODE (page 12)

### 17 SOUND\*1\*2

Permet d'ouvrir le menu sonore directement.

#### — MENU\*1

Appuyez sur la touche et maintenez-la enfoncée pour ouvrir le menu de configuration.

\*1 Non disponible lorsque le téléphone BT est sélectionné.

\*2 Non disponible pendant que la sortie optique est activée ou lorsque la source est désactivée et l'horloge est affichée.

### 18 DSPL (affichage)

Permet de changer les éléments d'affichage.

### 19 ←/↑/↓/→

Permet de sélectionner un élément de configuration, etc.

### ENTER

Permet d'entrer l'élément sélectionné.

### ◀◀/▶▶ (précédente/suivante)

USB1/USB2 : Permettent de sauter des pages.

Tuner : Permettent de syntoniser automatiquement une station de radio. Appuyez sur la touche et maintenez-la enfoncée pour syntoniser des stations manuellement.

### +/- (album +/-)

USB1/USB2 : Permettent de sauter des albums. Tuner : Permettent de capter des stations de radio mémorisées.

### 20 Touches numériques (1 à 6)

Permettent de capter des stations de radio mémorisées.

Appuyez sur la touche et maintenez-la enfoncée pour mémoriser des stations.

### PAUSE

Retirez la feuille de protection avant l'utilisation.

## Formats de fichiers audio haute résolution lisibles

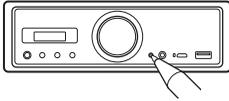

Les formats de fichiers lisibles, les fréquences d'échantillonnage et les résolutions varient en fonction du port utilisé, soit USB type-A ou USB micro-B.

	USB-DAC (Port USB micro-B)	USB1 (Port USB type-A, Avant)	USB2 (Port USB type-A, Arrière)
DSD	ASIO natif : 2,8 MHz/1 bit, 5,6 MHz/1 bit DoP : 2,8 MHz/1 bit, 5,6 MHz/ 1 bit	-	-
PCM	Max. 192 kHz/24 bits	-	-
DSF	-	2,8 MHz/1 bit (Conversion PCM)	2,8 MHz/1 bit (Conversion PCM)
DSDIFF	-	2,8 MHz/1 bit (Conversion PCM)	2,8 MHz/1 bit (Conversion PCM)
WAV	-	192/176,4/96/88,2/48/44,1 kHz (24 bits), 192/176,4/96/88,2 kHz (16 bits)	192/176,4/96/88,2/48/44,1 kHz (24 bits), 192/176,4/96/88,2 kHz (16 bits)
AIFF	-	192/176,4/96/88,2/48/44,1 kHz (24 bits), 192/176,4/96/88,2 kHz (16 bits)	192/176,4/96/88,2/48/44,1 kHz (24 bits), 192/176,4/96/88,2 kHz (16 bits)
FLAC	-	192/176,4/96/88,2/48/44,1 kHz (24 bits), 192/176,4/96/88,2 kHz (16 bits)	192/176,4/96/88,2/48/44,1 kHz (24 bits), 192/176,4/96/88,2 kHz (16 bits)
ALAC	-	192/176,4/96/88,2/48/44,1 kHz (24 bits), 192/176,4/96/88,2 kHz (16 bits)	192/176,4/96/88,2/48/44,1 kHz (24 bits), 192/176,4/96/88,2 kHz (16 bits)

## Préparation

### Réinitialisation de l'appareil

Avant la première utilisation de l'appareil ou après avoir remplacé la batterie du véhicule ou modifié les raccordements, vous devez réinitialiser l'appareil.

#### Remarque

Une pression sur la touche de réinitialisation efface le réglage de l'heure et certaines informations mémorisées.

### Réglage de l'horloge

Utilisez la télécommande pour effectuer les opérations suivantes.

- 1 Appuyez sur la touche MENU et maintenez-la enfoncée, appuyez sur ↑ ou ↓ pour sélectionner [General], puis appuyez sur ENTER.**
- 2 Appuyez sur ↑ ou ↓ pour sélectionner [Clock Adjust], puis appuyez sur ENTER.**  
L'indication des heures clignote.
- 3 Appuyez sur ↑ ou ↓ pour régler l'heure et les minutes.**  
Appuyez sur ← ou → pour déplacer l'indication numérique.
- 4 Appuyez sur ENTER après avoir réglé les minutes.**  
Le réglage est terminé et l'horloge démarre.

#### Affichage de l'horloge

Appuyez sur la touche DSPL.

### Préparation d'un périphérique BLUETOOTH

Vous pouvez écouter de la musique ou effectuer un appel en mains libres selon le périphérique compatible BLUETOOTH, tel que téléphone intelligent, téléphone cellulaire ou périphérique audio (ci-après nommé « périphérique BLUETOOTH », sauf en cas d'indication différente). Pour plus de détails sur la connexion, reportez-vous au mode d'emploi fourni avec le périphérique. Vous pouvez connecter le périphérique BLUETOOTH de deux façons :

- **Connexion par simple contact pour un périphérique BLUETOOTH compatible NFC.**
- **Connexion manuelle.**

Avant de connecter le périphérique, diminuez le volume de cet appareil; sinon, une accentuation du volume pourrait se produire.

### Connexion par simple contact avec un téléphone intelligent (NFC)

Lorsque vous touchez le symbole N de l'appareil avec un téléphone intelligent compatible NFC\*, l'appareil est automatiquement jumelé et connecté avec le téléphone intelligent.

\* La technologie NFC (Near Field Communication – Communication en champ proche) permet d'établir une communication sans fil à courte portée entre différents périphériques, tels que des téléphones cellulaires et des étiquettes CI. Grâce à la fonction NFC, la communication des données peut être réalisée en touchant simplement le symbole correspondant ou la zone spécifiée sur les périphériques compatibles NFC.

Pour les téléphones intelligents avec Android™ OS 4.0 ou version antérieure, le téléchargement de l'application « NFC Easy Connect » à partir de Google Play™ est requis. Il est possible que l'application ne soit pas disponible en téléchargement dans certains pays/certaines régions.

#### 1 Activez la fonction NFC sur le téléphone intelligent.

Pour plus de détails, reportez-vous au mode d'emploi fourni avec le téléphone intelligent.

- 2** Touchez le symbole N de l'appareil avec le symbole N du téléphone intelligent.

Assurez-vous que l'indicateur BLUETOOTH de l'appareil s'allume.

### Pour effectuer la déconnexion par simple contact

Touchez de nouveau le symbole N de l'appareil avec le symbole N du téléphone intelligent.

#### Remarques

- Pendant que vous établissez la connexion, manipulez le téléphone intelligent avec soin pour éviter de l'égratigner.
- Il n'est pas possible d'établir la connexion par simple contact lorsque l'appareil est déjà connecté à un autre périphérique compatible NFC. En pareil cas, déconnectez l'autre périphérique, puis établissez de nouveau la connexion avec le téléphone intelligent.

## Pairage et connexion avec un périphérique BLUETOOTH

Lorsque vous connectez un périphérique BLUETOOTH pour la première fois, un enregistrement mutuel (nommé « pairage ») est nécessaire. Le pairage permet à cet appareil et aux autres périphériques de se reconnaître entre eux.

- 1** Placez le périphérique BLUETOOTH à 1 m (3 pi) maximum de cet appareil.

- 2** Appuyez sur la touche ►|| de l'appareil et maintenez-la enfoncée pendant plus de 2 secondes.

Ou encore, appuyez sur la touche MENU de la télécommande et maintenez-la enfoncée, sélectionnez [BT Setting] → [Pairing], puis appuyez sur ENTER.

L'indicateur BLUETOOTH de l'appareil clignote (pendant que l'appareil est en mode de veille de pairage).

- 3** Procédez au pairage sur le périphérique BLUETOOTH afin qu'il détecte cet appareil.

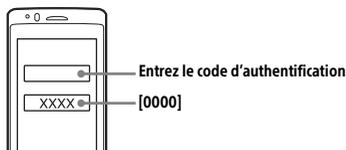

- 4** Sélectionnez [RSX-GS9] sur l'affichage du périphérique BLUETOOTH.

Si le nom de votre modèle n'apparaît pas, recommencez la procédure à partir de l'étape 2.

- 5** Si la saisie d'un code d'authentification\* est requise sur le périphérique BLUETOOTH, saisissez [0000].

\* Le code d'authentification peut également être nommé « clé d'authentification », « code NIP », « numéro NIP » ou « mot de passe », etc., en fonction du périphérique.

Une fois le pairage effectué, l'indicateur BLUETOOTH de l'appareil demeure allumé.

- 6** Sélectionnez cet appareil sur le périphérique BLUETOOTH pour établir la connexion BLUETOOTH.

#### Remarque

Pendant la connexion à un périphérique BLUETOOTH, cet appareil ne peut pas être détecté par un autre périphérique. Pour permettre la détection, accédez au mode de pairage et recherchez cet appareil à partir de l'autre périphérique.

#### Pour démarrer la lecture

Pour plus de détails, reportez-vous à la section « Lecture d'un périphérique BLUETOOTH » (page 15).

#### Annulation du pairage

Effectuez l'étape 2 pour quitter le mode de pairage après avoir jumelé cet appareil et le périphérique BLUETOOTH.

## Connexion avec un périphérique BLUETOOTH jumelé

Pour utiliser le périphérique une fois le pairage effectué, établissez la connexion à cet appareil. Certains périphériques jumelés se connectent automatiquement.

- 1 Appuyez sur la touche MENU de la télécommande et maintenez-la enfoncée, sélectionnez [BT Setting] → [BT Signal], puis appuyez sur ENTER.

Assurez-vous que l'indicateur BLUETOOTH de l'appareil s'allume.

- 2 Activez la fonction BLUETOOTH sur le périphérique BLUETOOTH.
- 3 Réglez le périphérique BLUETOOTH afin qu'il se connecte à cet appareil.

### Connexion au dernier périphérique connecté à partir de cet appareil

Activez la fonction BLUETOOTH sur le périphérique BLUETOOTH.

Appuyez sur SOURCE (SRC), puis sélectionnez [BT Phone]\* ou [BT Audio].

Appuyez sur ENTER pour connecter l'appareil au téléphone cellulaire ou sur PAUSE pour le connecter au périphérique audio.

\* Disponible uniquement lorsque la connexion « SongPal » est établie.

#### Remarque

Pendant la transmission BLUETOOTH audio en continu, vous ne pouvez pas établir la connexion au téléphone cellulaire à partir de cet appareil. Établissez plutôt la connexion à cet appareil à partir du téléphone cellulaire.

#### Conseil

Avec le signal BLUETOOTH activé : lorsque la clé de contact est tournée sur la position ON, cet appareil se reconnecte automatiquement au dernier téléphone cellulaire connecté.

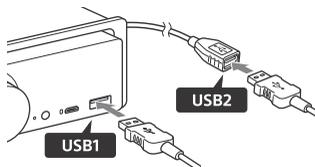

### Pour installer le microphone

Pour plus de détails, reportez-vous à la section « Installation du microphone » (page 33).

## Raccordement d'un périphérique USB

- 1 Réduisez le volume de l'appareil.
- 2 Raccordez le périphérique USB au port USB type-A.

Pour raccorder un iPod/iPhone, utilisez le câble de raccordement USB pour iPod/iPhone (non fourni).

## Raccordement d'un périphérique prenant en charge le format audio USB haute résolution

- 1 Réduisez le volume de l'appareil.
- 2 Raccordez un ordinateur, téléphone intelligent ou lecteur média numérique prenant en charge le format audio USB haute résolution au port USB micro-B.

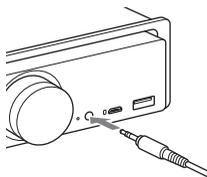

Pour plus de détails, reportez-vous à la section « Guide de raccordement d'un appareil audio » (page 7).

## Raccordement d'un autre appareil audio portable

- 1 Réduisez le volume de l'appareil.
- 2 Raccordez l'appareil audio portable à la prise d'entrée AUX (mini-prise stéréo) de l'appareil à l'aide d'un câble de raccordement (non fourni)\*.

\* N'utilisez aucun type de fiche pouvant faire obstacle au tableau de bord du véhicule.

Lorsque vous effectuez le raccordement à l'entrée à niveau élevé, consultez « AUX2 » dans « Raccordement » pour obtenir plus de détails (page 31).

- 3 Appuyez sur SRC pour sélectionner [AUX1].

Ou encore, sélectionnez [AUX2] pour le raccordement à l'entrée à niveau élevé.

### Pour faire correspondre le niveau de volume de l'appareil raccordé à celui des autres sources (pour AUX1 uniquement)

Démarrez la lecture sur l'appareil audio portable avec un niveau de volume modéré, puis réglez votre appareil sur le volume d'écoute habituel. Appuyez sur la touche MENU et maintenez-la enfoncée, puis sélectionnez [Sound] → [AUX Level] (page 20).

## Écoute de la radio

### Écoute de la radio

Pour écouter la radio, appuyez sur SOURCE (SRC) pour sélectionner [Tuner].

Utilisez la télécommande pour effectuer les opérations suivantes.

### Mémorisation automatique (BTM)

- 1 Appuyez sur MODE pour changer de bande (FM1, FM2, FM3, AM1 ou AM2).  
Ou encore, appuyez sur la touche ►|| de l'appareil pour changer de bande.
- 2 Appuyez sur la touche MENU et maintenez-la enfoncée, appuyez sur ↑ ou ↓ pour sélectionner [General], puis appuyez sur ENTER.
- 3 Appuyez sur ↑ ou ↓ pour sélectionner [BTM], puis appuyez sur ENTER.  
L'appareil mémorise les stations sur les touches numériques en respectant l'ordre des fréquences.

### Syntonisation

- 1 Appuyez sur MODE pour changer de bande (FM1, FM2, FM3, AM1 ou AM2).  
Ou encore, appuyez sur la touche ►|| de l'appareil pour changer de bande.
- 2 Réglez la fréquence.  
Pour syntoniser des stations manuellement Appuyez sur la touche ◀ ou ▶ et maintenez-la enfoncée pour localiser la fréquence approximativement, puis appuyez plusieurs fois sur ◀ ou ▶ pour régler la fréquence souhaitée avec précision.  
Pour syntoniser des stations automatiquement Appuyez sur ◀ ou ▶. (Ou encore, appuyez sur la touche ◀◀ ou ▶▶ de l'appareil et maintenez-la enfoncée pendant plus de 1 seconde.)  
Le balayage s'interrompt lorsque l'appareil capte une station.

## Mémorisation manuelle

- 1 Lorsque vous captez la station que vous souhaitez mémoriser, appuyez sur une touche numérique (1 à 6) et maintenez-la enfoncée jusqu'à ce que [MEM] apparaisse.

## Réception des stations mémorisées

- 1 Sélectionnez la bande, puis appuyez sur une touche numérique (1 à 6).  
Ou encore, appuyez sur la touche ◀◀ ou ▶▶ de l'appareil.

## Lecture

### Lecture d'un périphérique USB

Dans ce mode d'emploi, « iPod » est utilisé comme référence générale pour des fonctions iPod sur les iPod et iPhone, sauf mention contraire dans le texte ou les illustrations.

Pour plus de détails sur la compatibilité de votre iPod, reportez-vous à la section « À propos du iPod » (page 22) ou visitez notre site d'assistance à l'adresse indiquée sur la couverture arrière.

Vous pouvez utiliser des périphériques USB de type MSC (stockage de masse) (par exemple, mémoire flash USB, lecteur média numérique, téléphone intelligent Android) conformes à la norme USB. Selon le lecteur média numérique ou le téléphone intelligent Android, il peut être nécessaire de régler le mode de connexion USB à MSC. (Un périphérique USB en mode MTP ne sera pas disponible.)

### Dossier « Music » et son emplacement (lors du raccordement d'un périphérique USB)

Assurez-vous d'enregistrer les fichiers audio dans un dossier nommé « Music » et d'organiser le dossier directement sous le répertoire racine du périphérique USB. Sinon, l'appareil ne reconnaîtra pas les fichiers audio du périphérique.

#### Remarques

- Pour plus de détails sur la compatibilité de votre périphérique USB, visitez notre site d'assistance à l'adresse indiquée sur la couverture arrière.
- En cours de lecture USB, l'opération d'avance rapide/ de retour rapide n'est pas prise en charge.
- L'appareil commence à lire la structure de fichiers du périphérique raccordé lorsque la lecture est effectuée.
- [\*] apparaît dans l'affichage pendant que l'appareil lit la structure de fichiers du périphérique raccordé. Pendant que [\*] est affiché, il n'est pas possible d'effectuer un saut de plage ou d'album (dossier).
- En cours de lecture USB via le port USB type-A, un fichier DSD du périphérique raccordé est converti au format PCM.
- La lecture des fichiers suivants n'est pas prise en charge.
  - WMA/AAC :
  - fichiers avec protection des droits d'auteur
  - fichiers DRM (Gestion des droits numériques)
  - WMA :
  - fichiers avec compression sans perte
  - fichiers audio multicanal
- À titre indicatif, reconnaître un total de 2 000 fichiers audio dans 200 dossiers du périphérique USB prend environ 150 secondes.
- L'appareil pourrait prendre un certain temps à reconnaître le périphérique USB en cas d'actualisation de son organisation des fichiers.

- Avant de raccorder le périphérique USB, assurez-vous de sélectionner USB1 ou USB2. Si un périphérique USB avec structure de fichiers actualisée est raccordé pendant que l'appareil et l'affichage sont éteints, ou encore sans que USB1 ou USB2 soit sélectionné, l'appareil ne reconnaîtra pas la plus récente organisation des fichiers du périphérique.

## 1 Raccordez un périphérique USB au port USB type-A (page 11).

La lecture commence. (Selon l'organisation des fichiers, la lecture peut prendre un instant à démarrer.)

## 2 Réglez le volume sur cet appareil.

### Pour suspendre la lecture

Appuyez sur ►II.

### Pour retirer le périphérique

Arrêtez la lecture, puis retirez le périphérique.

### Pour afficher la fréquence d'échantillonnage et la résolution du fichier audio en cours de lecture

Appuyez sur DSPL pendant la lecture.

#### Remarques

- Lorsque la lecture DSD est effectuée via USB1 ou USB2, la fréquence d'échantillonnage et la résolution avant la conversion au format PCM sont affichées.
- Lorsqu'un iPod/iPhone est raccordé à USB1 ou USB2, la fréquence d'échantillonnage et la résolution ne s'affichent pas.

### Précaution relative au iPhone

Lorsque vous raccordez un iPhone via un câble USB, le volume de l'appel téléphonique est contrôlé par le iPhone plutôt que par l'appareil. N'augmentez pas le volume de l'appareil par inadvertance pendant un appel téléphonique, car cela causerait une accentuation soudaine du volume après l'appel.

## Lecture d'un périphérique prenant en charge le format audio USB haute résolution

Pour plus de détails sur la compatibilité de votre périphérique prenant en charge le format audio USB haute résolution et du logiciel ou de l'application de lecture audio prenant en charge le format DSD, consultez le site d'assistance à l'adresse indiquée sur la couverture arrière.

### Pour votre sécurité

- N'utilisez pas le périphérique prenant en charge le format audio USB haute résolution pendant la conduite.

- Avant de conduire votre véhicule, assurez-vous que le périphérique prenant en charge le format audio USB haute résolution ne produira pas un niveau sonore élevé pendant la lecture (plus particulièrement pendant la lecture au format DSD natif).

## 1 Raccordez un périphérique prenant en charge le format audio USB haute résolution au port USB micro-B (page 11).

## 2 Faites fonctionner le périphérique pour démarrer la lecture.

## 3 Réglez le volume sur cet appareil.

### Pour arrêter la lecture

Faites fonctionner le périphérique pour arrêter la lecture.

Les commandes de l'appareil ou de la télécommande sont inopérantes.

### Pour retirer le périphérique

Arrêtez la lecture, puis retirez le périphérique.

### Pour afficher la fréquence d'échantillonnage et la résolution du fichier audio en cours de lecture

Appuyez sur DSPL pendant la lecture.

Par exemple, les informations s'affichent de la manière suivante :

[192/24] : 192 kHz/24 bits

[DSD 5.6MHz] : 5,6 MHz/1 bit

#### Remarques

- La lecture sans interruption est effectuée lorsque la fréquence d'échantillonnage et la résolution sont identiques à celles de la plage suivante ou précédente.
- Si la fréquence d'échantillonnage et la résolution affichées sont inappropriées, vérifiez les réglages du périphérique et son raccordement.
- Dans le cas d'un fichier DSD sur un périphérique raccordé via le port USB micro-B, la lecture au format DSD natif est effectuée. En cours de lecture, assurez-vous que la lecture au format DSD natif s'effectue correctement sur le périphérique prenant en charge le format audio USB haute résolution. Interface de données, fréquence d'échantillonnage et résolution correspondantes :
  - PCM :
    - Max. 192 kHz/24 bits
  - DSD :
    - ASIO natif : 2,8 MHz/1 bit, 5,6 MHz/1 bit
    - DoP : 2,8 MHz/1 bit, 5,6 MHz/1 bit

## Lecture d'un périphérique BLUETOOTH

Vous pouvez lire les contenus d'un périphérique connecté qui prend en charge le profil BLUETOOTH A2DP (Advanced Audio Distribution Profile). L'utilisation d'un périphérique prenant en charge le format LDAC est recommandée.

**1** Établissez une connexion BLUETOOTH avec le périphérique audio (page 9).

**2** Appuyez sur SRC pour sélectionner [BT Audio].

Ou encore, appuyez sur la touche SOURCE de la télécommande.

**3** Faites fonctionner le périphérique audio pour démarrer la lecture.

**4** Réglez le volume sur cet appareil.

### Remarques

- Même si vous changez la source sur cet appareil, la lecture ne s'interrompt pas sur le périphérique audio.
- [BT Audio] ne s'affiche pas pendant l'utilisation de l'application « SongPal » via la fonction BLUETOOTH.

### Pour faire correspondre le niveau de volume du périphérique BLUETOOTH à celui des autres sources

Démarrez la lecture sur le périphérique audio BLUETOOTH avec un niveau de volume modéré, puis réglez votre appareil sur le volume d'écoute habituel.

Appuyez sur la touche MENU et maintenez-la enfoncée, puis sélectionnez [BT Setting] → [BTA Level] (page 20).

### Pour appliquer le codec SBC uniquement

Appuyez sur la touche MENU de la télécommande et maintenez-la enfoncée, puis réglez [Audio Codec] dans [BT Setting] à [SBC] (page 20).

## Recherche et lecture des pages

Utilisez la télécommande pour effectuer les opérations suivantes.

Pour un iPod, la lecture répétée et la lecture aléatoire ne sont pas disponibles.

### Lecture répétée et lecture aléatoire

**1** En cours de lecture USB1 ou USB2, appuyez plusieurs fois sur REP ou SHUF pour sélectionner le mode de lecture souhaité.

La lecture dans le mode de lecture sélectionné peut prendre un instant à démarrer.

Mode de lecture répétée :

- [Repeat Track] permet d'effectuer la lecture de la plage à répétition.
- [Repeat Album] permet d'effectuer la lecture des plages de l'album (dossier) à répétition.
- [Repeat OFF] permet d'annuler la lecture répétée.

Mode de lecture aléatoire :

- [Shuffle Device] permet d'effectuer la lecture de toutes les pages du dossier « Music » dans un ordre aléatoire.
- [Shuffle OFF] permet d'annuler la lecture aléatoire.

### Remarques

- En cours de lecture répétée, le mode de lecture aléatoire ne peut pas être sélectionné. En cours de lecture aléatoire, seule l'option [Repeat Track] peut être sélectionnée; l'option [Repeat Album] ne peut pas être sélectionnée.
- L'option [Shuffle Device] est disponible uniquement lorsque la lecture répétée est désactivée.
- Lorsque la lecture aléatoire est effectuée ou annulée, la lecture démarre à partir de la première page du dossier « Music ».
- Pendant que la lecture aléatoire est effectuée avec l'option [Repeat Track] sélectionnée, le fait d'appuyer sur ►► annule [Repeat Track] et redémarre la lecture aléatoire à partir de la première plage dans le dossier « Music ».
- En cours de lecture aléatoire, l'affichage de la liste n'est pas disponible dans « SongPal ». Pour permettre l'affichage de la liste, annulez le mode de lecture aléatoire.

## Appel en mains libres (via BLUETOOTH uniquement)

Pour utiliser un téléphone cellulaire, connectez-le à cet appareil. Pour plus de détails, reportez-vous à la section « Préparation d'un périphérique BLUETOOTH » (page 9). [BT Phone] devient disponible pour la sélection de la source uniquement lorsque la connexion « SongPal » est établie.

Utilisez les commandes de l'appareil pour effectuer les opérations suivantes.

## Réception d'un appel

- 1 Appuyez sur une touche quelconque lors de la réception d'un appel avec une sonnerie.

L'appel téléphonique commence.

### Remarque

La sonnerie et la voix de l'appelant sont émises uniquement par l'appareil audio raccordé à FRONT AUDIO OUT.

### Pour refuser l'appel

Appuyez sur la touche suivante et maintenez-la enfoncée :

- une touche autre que SRC pendant 2 secondes.
- SRC pendant 1 à 2 secondes.

### Pour terminer l'appel

Appuyez sur SRC.

## Faire un appel

Vous pouvez faire un appel via « SongPal » uniquement. Pour plus de détails, reportez-vous à la section « SongPal avec iPhone/téléphone intelligent Android » (page 17).

## Opérations disponibles en cours d'appel

### Pour régler le volume de la sonnerie

Tournez la molette de volume pendant la réception d'un appel.

### Pour régler le volume de la voix de l'appelant

Tournez la molette de volume pendant un appel.

### Réglage du volume pour le correspondant (Réglage de gain de micro)

Appuyez sur ◀◀ pendant un appel.

Niveaux de volume réglables : [MIC High], [MIC Low], [MIC Middle].

### Pour atténuer l'écho et les bruits (Mode Correcteur d'écho/Correcteur de bruits)

Appuyez sur ▶▶ pendant un appel.

Modes disponibles : [ECNC 1], [ECNC 2].

### Pour alterner entre le mode mains libres et le mode téléphone cellulaire

Pendant un appel, appuyez sur ▶▶ pour faire passer le son de l'appel téléphonique entre l'appareil et le téléphone cellulaire.

### Remarque

Selon le téléphone cellulaire utilisé, cette opération pourrait ne pas être disponible.

## Fonctions pratiques

### SongPal avec iPhone/ téléphone intelligent Android

Le téléchargement de la dernière version de « SongPal » est requis à partir de la boutique App Store pour le iPhone ou à partir de Google Play pour le téléphone intelligent Android.

#### Remarques

- Pour votre sécurité, respectez les réglementations et lois locales relatives à la circulation routière et n'utilisez pas l'application pendant la conduite.
- « SongPal » est une application permettant de contrôler des périphériques audio Sony compatibles avec « SongPal » à l'aide de votre iPhone/téléphone intelligent Android.
- Les options qu'il est possible de contrôler à l'aide de « SongPal » varient selon le périphérique connecté.
- Pour utiliser les fonctions de « SongPal », consultez les détails sur votre iPhone/téléphone intelligent Android.
- Pour plus de détails sur « SongPal », visitez l'adresse URL suivante : <http://rd1.sony.net/help/speaker/songpal/>
- Visitez le site Web ci-dessous et vérifiez les modèles de iPhone/téléphone intelligent Android compatibles.  
Pour un iPhone : visitez l'App Store  
Pour un téléphone intelligent Android : visitez Google Play

#### Pour sélectionner la source

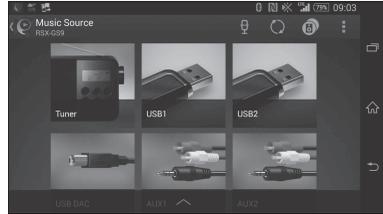

Appuyez plusieurs fois sur SOURCE.

#### Remarque

Pendant que « Settings » est sélectionné, les commandes de l'appareil et la télécommande sont inopérantes, à l'exception du volume. Faites fonctionner votre iPhone/téléphone intelligent Android.

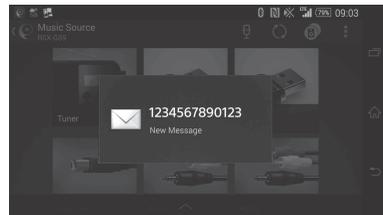

#### Pour afficher la liste des sources

Tapotez sur l'icône de liste des sources dans l'application « SongPal ».

### Annonce de la réception de diverses informations par commande vocale (téléphone intelligent Android uniquement)

Dès leur réception, les SMS, les notifications Twitter/Facebook/Calendrier, etc., sont automatiquement annoncés par l'appareil audio raccordé à FRONT AUDIO OUT.

Pour plus de détails sur les réglages, consultez la section d'aide de l'application.

### Réponse à un message SMS (téléphone intelligent Android uniquement)

Vous pouvez répondre à un message.

- 1 Tapotez sur l'icône de réponse dans l'application « SongPal ».  
L'affichage de saisie de message apparaît.
- 2 Entrez un message de réponse à l'aide de la reconnaissance vocale.  
La liste de messages disponibles apparaît.
- 3 Tapotez sur le message souhaité.  
Le message est envoyé.

Pour plus de détails, consultez la section d'aide de l'application.

### Établissement de la connexion SongPal

**1** Établissez la connexion BLUETOOTH avec le iPhone/téléphone intelligent Android (page 9).

**2** Démarrez l'application « SongPal ».

La connexion au iPhone/téléphone intelligent Android démarre.

Pour plus de détails sur le fonctionnement du iPhone/téléphone intelligent Android, consultez la section d'aide de l'application.

#### Si le numéro de périphérique s'affiche

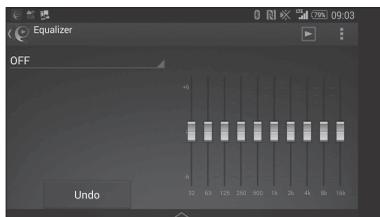

Assurez-vous que le numéro s'affiche (par exemple, 123456), puis sélectionnez [Oui] sur le iPhone/téléphone intelligent Android.

### Sélection de la source ou de l'application

Vous pouvez utiliser l'appareil pour sélectionner la source ou l'application souhaitée sur le iPhone/téléphone intelligent Android.

## Réglages du son et de l'affichage

Vous pouvez ajuster les réglages reliés au son et à l'affichage via le iPhone/téléphone intelligent Android.

Pour plus de détails sur les réglages, consultez la section d'aide de l'application.

## Réglages

### Configuration de base

Vous pouvez configurer des paramètres dans les catégories de configuration suivantes : Configuration générale (General), Configuration sonore (Sound), Configuration BLUETOOTH (BT Setting)

Le réglage à l'aide de « SongPal » est également disponible (page 17).

(Lorsque le téléphone BT est sélectionné, seule la configuration BLUETOOTH est disponible.)

Utilisez la télécommande pour effectuer les opérations suivantes.

**1** Appuyez sur la touche MENU et maintenez-la enfoncée, appuyez sur **↑** ou **↓** pour sélectionner la catégorie de configuration, puis appuyez sur ENTER.

Les paramètres peuvent être réglés selon la source et le réglage.

**2** Appuyez sur **↑** ou **↓** pour sélectionner les options, puis appuyez sur ENTER.

**Pour retourner à l'écran précédent**

Appuyez sur **↶**.

---

## Configuration générale (General)

---

**Clock Adjust** (page 9)

---

### Dimmer

Réduit l'intensité de la fenêtre d'affichage : [ON], [OFF], [Auto].

([Auto] est disponible uniquement lorsque le câble de commande d'éclairage est raccordé et que les phares sont allumés).

---

### Optical Out

Permet de sélectionner le réglage de sortie optique : [OFF], [48kHz], [96kHz].

(La commande de volume de l'appareil est inopérante lorsque l'option est réglée à [48kHz] ou [96kHz].)

---

**BTM** (mémoire des meilleurs accords)  
(page 12)

(Disponible uniquement lorsque le récepteur est sélectionné.)

---

## Firmware

(Disponible uniquement lorsque la source est désactivée et que l'horloge est affichée.)  
Permet de vérifier/mettre à jour la version du micrologiciel. Pour plus de détails, visitez le site d'assistance à l'adresse indiquée sur la couverture arrière.

### Version

Affiche la version de micrologiciel actuelle.

### Update

Permet d'accéder au processus de mise à jour du micrologiciel : [NO], [YES].  
La mise à jour du micrologiciel prend quelques minutes. Pendant la mise à jour, ne tourez pas la clé de contact à la position OFF.

---

---

## Configuration sonore (Sound)

Vous pouvez également ouvrir ce menu de configuration en appuyant sur SOUND. Si [Optical Out] est réglé à [48kHz] ou [96kHz], ce menu de configuration n'est pas disponible.

---

### Subwoofer

(Réglage automatique à [OFF] si [Optical Out] est réglé à [48kHz] ou [96kHz].) (Non disponible pendant la lecture au format DSD natif lorsque USB-DAC est sélectionné.)

#### Sub Level (niveau du caisson de graves)

Permet de régler le niveau du caisson de graves : [+10dB] – [0dB] – [-10dB].

#### Sub Phase (phase du caisson de graves)

Permet de sélectionner la phase du caisson de graves : [Normal], [Reverse].

#### LPF Freq (fréquence de filtre passe-bas)

Permet de sélectionner la fréquence de coupure du caisson de graves : [OFF], [50Hz], [63Hz], [79Hz], [99Hz], [125Hz], [158Hz], [198Hz], [250Hz].

#### LPF Slope (pente de filtre passe-bas)

Permet de sélectionner la pente de filtre passe-bas LPF (applicable uniquement lorsque l'option [LPF Freq] n'est pas réglée à [OFF]) : [SLP1] (-12 dB/oct), [SLP2] (-24 dB/oct), [SLP3] (-36 dB/oct), [SLP4] (-48 dB/oct).

#### LPF Mode (mode de filtre passe-bas)

Permet de régler le mode du filtre : [Mono], [Stereo].

#### HPF Freq (fréquence de filtre passe-haut)

Permet de sélectionner la fréquence de coupure du haut-parleur avant/arrière : [OFF], [50Hz], [63Hz], [79Hz], [99Hz], [125Hz], [158Hz], [198Hz], [250Hz].

#### HPF Slope (pente de filtre passe-haut)

Permet de sélectionner la pente de filtre passe-haut HPF (applicable uniquement lorsque l'option [HPF Freq] n'est pas réglée à [OFF]) : [SLP1] (-12 dB/oct), [SLP2] (-24 dB/oct), [SLP3] (-36 dB/oct), [SLP4] (-48 dB/oct).

---

---

### Sub DSD (caisson de graves DSD)

(Disponible pendant la lecture au format DSD natif lorsque USB-DAC est sélectionné.)

#### LPF Freq (fréquence de filtre passe-bas)

Permet de sélectionner la fréquence de coupure du caisson de graves : [OFF], [150Hz].

#### LPF Mode (mode de filtre passe-bas)

Permet de régler le mode du filtre : [Mono], [Stereo].

---

### Pos Custom (position personnalisée)

Permet de régler l'option [Custom] de [Pos Preset].

(Disponible lorsqu'une source autre que le téléphone BT est sélectionnée.) (Réglage automatique à [OFF] si [Optical Out] est réglé à [48kHz] ou [96kHz].)

#### Front Left, Front Right, Rear Left, Rear Right, Subwoofer

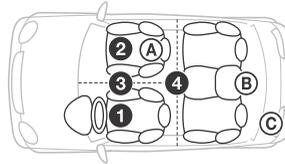

Permet de régler la distance entre votre position souhaitée et le haut-parleur.

Plage de réglage : [0] – [350] cm (0 à 11,5 pi)

([Subwoofer] n'est pas disponible pendant la lecture au format DSD natif lorsque USB-DAC est sélectionné.)

---

### Pos Preset (position présélectionnée)

#### F/R Pos (position avant/arrière)

Permet de simuler un champ acoustique naturel en retardant les sons émis par les haut-parleurs en fonction de votre position :

- ① [Front Left],
- ② [Front Right],

③ [Front],

④ [ALL] (centre de votre véhicule),

[Custom] (position réglée dans [Pos Custom]),

[OFF] (aucune position réglée)

#### Adjust Pos\* (ajustement de position)

Permet de régler la position d'écoute avec précision : [+3] – [0] – [-3].

#### Subwoofer\* (position du caisson de graves)

Ⓐ [Near],

Ⓑ [Normal],

Ⓒ [Far]

---

### EQ10 Preset

Permet de sélectionner une courbe d'égaliseur parmi 10 courbes d'égaliseur ou de désactiver la fonction : [OFF], [R & B], [Rock], [Pop], [Dance], [Hip-Hop], [Electronica], [Jazz], [Soul], [Country], [Custom] (courbe d'égaliseur réglée par « SongPal »).

Le réglage de courbe d'égaliseur peut être mémorisé pour chaque source.

---

(Disponible lorsqu'une source autre que le téléphone BT est sélectionnée.) (Réglage automatique à [OFF] si [Optical Out] est réglé à [48kHz] ou [96kHz].) (Non disponible pendant la lecture au format DSD natif lorsque USB-DAC est sélectionné.)

---

### **Balance**

Permet de régler l'équilibre du son : [R-15] – [Center] – [L-15].

(Disponible lorsqu'une source autre que le téléphone BT est sélectionnée.) (Réglage automatique à [OFF] si [Optical Out] est réglé à [48kHz] ou [96kHz].)

---

### **Fader**

Permet de régler le niveau relatif : [F-15] – [Center] – [R-15].

(Disponible lorsqu'une source autre que le téléphone BT est sélectionnée.) (Réglage automatique à [OFF] si [Optical Out] est réglé à [48kHz] ou [96kHz].)

---

### **Loudness**

Permet de renforcer les graves et les aigus pour vous permettre d'entendre les sons clairement à des volumes faibles : [OFF], [ON].

(Non disponible pendant la lecture au format DSD natif lorsque USB-DAC est sélectionné.)

---

### **DSEE HX** (moteur d'amélioration sonore numérique HX)

Permet d'améliorer la qualité des sons compressés numériquement en restaurant les hautes fréquences supprimées lors du processus de compression.

Ce réglage peut être mémorisé pour chaque source autre que le récepteur ou AUX.

Permet de sélectionner le mode DSEE HX : [OFF], [ON].

(Disponible uniquement lorsque USB1, USB2, USB-DAC ou BT Audio est sélectionné.) (Réglage automatique à [OFF] si [Optical Out] est réglé à une option autre que [OFF].) (Non disponible pendant la lecture au format DSD natif lorsque USB-DAC est sélectionné.)

---

### **AUX Level** (pour AUX1 uniquement)

Permet de régler le niveau de volume de chaque périphérique auxiliaire raccordé : [+18dB] – [0dB] – [-8dB].

Ce réglage évite de régler le niveau de volume entre les sources.

---

## **Configuration BLUETOOTH (BT Setting)**

---

### **BT Signal** (signal BLUETOOTH) (page 11)

Permet d'activer/de désactiver la fonction BLUETOOTH.

---

### **Pairing** (pairage BLUETOOTH) (page 10)

---

### **BTA Level** (niveau audio BLUETOOTH)

Permet de régler le niveau de volume de chaque périphérique BLUETOOTH connecté : [+6dB] – [0dB] – [-6dB]. Ce réglage évite de régler le niveau de volume entre les sources.

---

### **Audio Codec**

Permet de sélectionner le type de codec audio BLUETOOTH : [AUTO] (LDAC, AAC, SBC), [SBC]. (Non disponible via « SongPal ».)

---

### **Auto Answer**

Permet de configurer cet appareil pour répondre automatiquement aux appels reçus : [OFF], [3sec], [10sec].

---

### **Ring Tone**

Permet de sélectionner la sonnerie de cet appareil ou du téléphone cellulaire connecté : [TONE 1] (cet appareil), [TONE 2] (téléphone cellulaire).

---

### **BT Initialize**

Permet d'initialiser tous les réglages BLUETOOTH (informations de pairage, informations sur le périphérique, etc.) : [NO], [YES].

Avant de mettre l'appareil au rebut, initialisez tous les réglages.

---

\* Ne s'affiche pas lorsque [F/R Pos] est réglé à [OFF].

## Réglage de sortie optique et réglages sonores disponibles

Les réglages sonores disponibles varient en fonction du réglage de sortie optique et de la source sélectionnée.

	Optical Out	Tuner	USB1 (avant), USB2 (arrière)	USB-DAC (PCM)	USB-DAC (DSD)	AUX1 (avant)	AUX2 (entrée à niveau élevé)	BT Audio	BT Phone
Subwoofer	OFF	✓	✓	✓	–	✓	✓	✓	–
	48 kHz, 96 kHz	–	–	–	–	–	–	–	–
Sub DSD	OFF	–	–	–	✓ (OFF, 150 Hz)	–	–	–	–
	48 kHz, 96 kHz	–	–	–	–	–	–	–	–
Pos Custom	OFF	✓	✓	✓	✓*	✓	✓	✓	–
	48 kHz, 96 kHz	–	–	–	–	–	–	–	–
Pos Preset	OFF	✓	✓	✓	✓	✓	✓	✓	–
	48 kHz, 96 kHz	–	–	–	–	–	–	–	–
EQ10 Preset	OFF	✓	✓	✓	–	✓	✓	✓	–
	48 kHz, 96 kHz	–	–	–	–	–	–	–	–
Balance	OFF	✓	✓	✓	✓	✓	✓	✓	–
	48 kHz, 96 kHz	–	–	–	–	–	–	–	–

	48 kHz, 96 kHz	–	–	–	–	–	–	–	–

\* Seule l'option [Subwoofer] dans [Pos Custom] n'est pas disponible.

## Informations complémentaires

### Mise à jour du micrologiciel

Pour mettre à jour le micrologiciel, visitez le site d'assistance à l'adresse indiquée sur la couverture arrière, puis suivez les instructions en ligne. La mise à jour du micrologiciel prend quelques minutes. Pendant la mise à jour, ne tournez pas la clé de contact à la position OFF.

#### Remarque

L'utilisation d'un périphérique USB (non fourni) est requise pour la mise à jour du micrologiciel. Enregistrez le logiciel de mise à jour sur le périphérique USB, raccordez le périphérique au port USB1 (avant), puis effectuez la mise à jour. Le port USB2 (arrière) ne peut pas être utilisé pour la mise à jour.

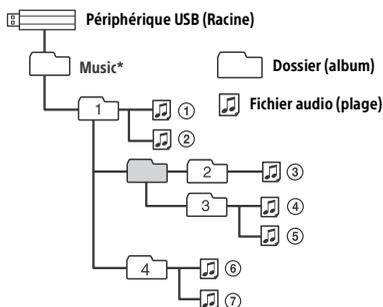

### Précautions

- Si votre véhicule est resté stationné en plein soleil, laissez l'appareil refroidir avant de l'utiliser.
- Ne laissez pas les appareils audio à l'intérieur du véhicule, car la température élevée résultant du rayonnement direct du soleil pourrait causer un problème de fonctionnement.
- L'antenne électrique se déploie automatiquement, selon le type de véhicule.
- Lors de l'utilisation de l'appareil dans un endroit froid, la rotation de la molette de volume pourrait s'effectuer un peu moins facilement.

#### Pour conserver un son de haute qualité

Ne renversez pas de liquide sur l'appareil.

### Ordre de lecture des fichiers audio

\* Pour le nom du dossier « Music » sous le répertoire racine, aucune restriction ne s'applique à l'utilisation des lettres en majuscules ou minuscules. (« Music », « music » et « MUSIC » sont valides.)

### À propos du iPod

- Vous pouvez raccorder cet appareil aux modèles d'iPod suivants. Mettez vos périphériques iPod à jour avec le logiciel le plus récent avant toute utilisation.

- « Made for iPod » et « Made for iPhone » signifient qu'un accessoire électronique a été conçu pour être connecté spécifiquement à un iPod ou un iPhone, respectivement, et qu'il a été certifié par le développeur comme étant conforme aux normes de performances Apple. Apple n'est pas responsable du bon fonctionnement de cet appareil ni de sa conformité aux normes et réglementations de sécurité. Veuillez noter que l'utilisation de cet accessoire avec un iPod ou un iPhone peut affecter les performances des transmissions sans fil.

Si vous avez des questions ou des problèmes concernant cet appareil qui ne sont pas abordés dans ce mode d'emploi, contactez votre détaillant Sony le plus proche.

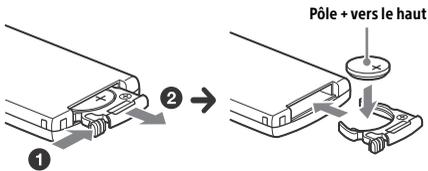

## Entretien

### Remplacement de la pile au lithium de la télécommande

Sous des conditions normales d'utilisation, la pile durera environ 1 an (selon les conditions d'utilisation, la durée de vie utile peut être réduite). Lorsque la pile est faible, la portée de la télécommande diminue.

#### ATTENTION

La pile pourrait exploser si elle n'est pas remplacée correctement. Remplacez-la uniquement avec le même type de pile ou un type équivalent.

#### Remarques sur la pile au lithium

- Tenez la pile au lithium hors de la portée des enfants. En cas d'ingestion de la pile, consultez immédiatement un médecin.
- Essayez la pile avec un chiffon sec pour assurer un bon contact.
- Veillez à respecter la polarité lors de l'installation de la pile.
- Ne tenez pas la pile avec des pinces métalliques, car cela pourrait causer un court-circuit.

## Caractéristiques techniques

### Radio

#### FM

Plage de syntonisation : 87,5 à 107,9 MHz

Borne d'antenne :

Connecteur d'antenne externe

Fréquence intermédiaire :

FM CCIR : -1 956,5 à -487,3 kHz et

+500,0 à +2 095,4 kHz

Sensibilité utile : 8 dBf

Sélectivité : 75 dB à 400 kHz

Rapport signal/bruit : 73 dB

Séparation : 50 dB à 1 kHz

Réponse en fréquence : 20 à 15 000 Hz

#### AM

Plage de syntonisation : 530 à 1 710 kHz

Borne d'antenne :

Connecteur d'antenne externe

Sensibilité : 26  $\mu$ V

### Lecteur USB

Interface : USB (haute vitesse)

Courant maximal : 1,5 A (conforme USB BC1.2)

Nombre maximal de dossiers reconnaissables : 997  
(y compris le dossier « Music » sous le répertoire racine)

Nombre maximal de plages reconnaissables :  
10 000

Codecs correspondants :

MP3 (.mp3) :

16/22,05/24/32/44,1/48 kHz, 16 à 320 kbit/s  
(CBR/VBR)

AAC (.m4a, .mp4, .3gp) :

16/22,05/24/32/44,1/48/88,2/96 kHz,  
16 à 320 kbit/s (CBR/VBR)

WMA (.wma) :

32/44,1/48 kHz, 16 à 320 kbit/s (CBR/VBR)

WAV (.wav) :

16/22,05/24/32/44,1/48/88,2/96/176,4/  
192 kHz (16/24 bits)

AIFF (.aiff, .aif) :

32/44,1/48/88,2/96/176,4/192 kHz  
(16/24 bits)

FLAC (.flac) :

16/22,05/24/32/44,1/48/88,2/96/176,4/  
192 kHz (16/24 bits)

ALAC (.m4a) :

16/22,05/24/32/44,1/48/88,2/96/176,4/  
192 kHz (16/24 bits)

DSD (DSF/DSDIFF)\* (.dsf, .dff) :

2,8 MHz (1 bit)

\* via le port USB type-A, la conversion PCM est effectuée pendant la lecture.

## Lecteur USB-DAC

Interface : USB micro-B

Rapport signal/bruit : 117 dB (à 1 kHz)

Réponse en fréquence : 20 Hz à 90 kHz (-3 dB)

Distorsion harmonique : 0,007 % ou moins (à 1 kHz)

Interface de données, fréquence d'échantillonnage

et résolution correspondantes :

PCM : Max. 192 kHz/24 bits

DSD :

ASIO natif : 2,8 MHz/1 bit, 5,6 MHz/1 bit

DoP : 2,8 MHz/1 bit, 5,6 MHz/1 bit

## Communication sans fil

Système de communication :

Norme BLUETOOTH version 3.0

Sortie :

Norme BLUETOOTH Power Class 2

(Max. +4 dBm)

Portée de communication maximale :

En ligne directe, environ 7 m (23 pi)\*1

Bande de fréquence :

Bande de 2,4 GHz (2,4000 à 2,4835 GHz)

Méthode de modulation : FHSS

Profils BLUETOOTH compatibles\*2 :

A2DP (Advanced Audio Distribution Profile) 1.3

AVRCP (Audio Video Remote Control Profile) 1.5

HFP (Handsfree Profile) 1.6

SPP (Serial Port Profile)

Codecs correspondants :

SBC (.sbc), AAC (.m4a) et LDAC (.ldac)

\*1 La portée réelle varie en fonction de nombreux facteurs, tels que la présence d'obstacles entre les périphériques, les champs magnétiques autour des fours à micro-ondes, l'électricité statique, la sensibilité de la réception, les performances de l'antenne, le système d'exploitation, les applications logicielles, etc.

\*2 Les profils standard BLUETOOTH sont destinés à la communication BLUETOOTH entre les périphériques.

## Généralités

Dispositif DAC (Digital Audio Converter –

Convertisseur audio numérique) : ES9018S par ESS Technology, Inc.

Sorties :

Borne de sorties audio (FRONT, REAR, SUB)

Borne de commande de relais d'antenne

électrique/d'amplificateur de puissance (REM OUT)

Borne de sortie optique

Entrées :

Borne d'entrée à niveau élevé (3 V à 12 V)

Borne d'entrée de télécommande

Borne d'entrée de l'antenne

Borne d'entrée MIC

Prise d'entrée AUX (mini-prise stéréo)

Port USB type-A (avant, arrière)

Port USB micro-B

Alimentation requise : Batterie de véhicule 12 V CC (masse négative)

Consommation de courant nominale : 10 A

Dimensions :

Environ 178 mm × 50 mm × 167 mm

(7 1/8 po × 2 po × 6 5/8 po) (l/h/p)

Dimensions de montage :

Environ 182 mm × 53 mm × 154 mm

(7 1/4 po × 2 1/8 po × 6 1/8 po) (l/h/p)

Poids : Environ 1,5 kg (3 lb 3 oz)

Contenu de l'emballage :

Appareil principal (1)

Télécommande (1) : RM-X261

Microphone (1)

Composants destinés à l'installation et aux raccordements (1 jeu)

Câble USB (1)

La conception et les caractéristiques techniques sont sujettes à modification sans préavis.

---

## Dépannage

La liste de vérification suivante vous aidera à remédier aux problèmes que vous pourriez rencontrer avec cet appareil.  
Avant de passer en revue la liste ci-dessous, vérifiez les procédures de raccordement et d'utilisation. Pour plus de détails sur l'utilisation du fusible et le retrait de l'appareil du tableau de bord, reportez-vous à « Raccordement/Installation » (page 30).  
Si vous ne parvenez pas à régler le problème, visitez le site d'assistance à l'adresse indiquée sur la couverture arrière.

---

### Généralités

#### L'appareil n'est pas alimenté.

- Si l'appareil est éteint et que l'affichage disparaît, il est impossible de commander l'appareil avec la télécommande.
  - Mettez l'appareil en marche en appuyant sur SRC.

---

#### Aucun son n'est émis ou le son est très faible.

- La position de la commande d'équilibre avant/arrière [Fader] n'est pas réglée pour un système à 2 haut-parleurs.
- Le volume de l'appareil et/ou du périphérique connecté est très faible.
  - Augmentez le volume de l'appareil et du périphérique connecté.

---

#### Le contenu de la mémoire a été effacé.

- La touche de réinitialisation a été enfoncée.
  - Recommencez la procédure d'enregistrement dans la mémoire.
- Le câble d'alimentation ou la batterie a été déconnecté(e) ou n'est pas raccordé(e) correctement.

---

#### Les stations mémorisées sont effacées et l'heure est remise à zéro.

#### Le fusible est grillé.

#### Émission d'un bruit lorsque la position de la clé de contact est modifiée.

- Les câbles ne sont pas raccordés correctement au connecteur d'alimentation du véhicule destiné aux accessoires.

---

#### L'affichage disparaît de la fenêtre d'affichage ou il n'apparaît pas.

- [Dimmer] (régulateur de luminosité) est réglé à [ON] (page 18).
- L'affichage est désactivé si vous maintenez la touche OFF enfoncée.
  - Maintenez enfoncée la touche SRC de l'appareil jusqu'à ce que l'affichage apparaisse.

---

### Les touches de commande ne fonctionnent pas.

- Le raccordement est incorrect.
  - Vérifiez le raccordement de l'appareil.  
Si la situation ne s'améliore pas, appuyez sur la touche de réinitialisation (page 9).  
Les contenus de la mémoire sont effacés.  
Pour votre sécurité, ne réinitialisez pas l'appareil pendant que vous conduisez.

## Réception radio

### Impossible de capter les stations.

#### Le son est parasité.

- Le raccordement est incorrect.
  - Si votre véhicule est équipé d'une antenne de radio intégrée dans la fenêtre arrière ou latérale, raccordez un câble REM OUT (rayé bleu/blanc) ou un câble d'alimentation d'accessoires (rouge) au câble d'alimentation de l'amplificateur d'antenne du véhicule.
  - Vérifiez le raccordement de l'antenne du véhicule.
  - Si l'antenne automatique ne se déploie pas, vérifiez le raccordement du câble de commande d'antenne électrique.

---

### Impossible de capter une station présélectionnée.

- Le signal capté est trop faible.

## Lecture de périphérique USB

### Impossible de lire des éléments à l'aide d'un concentrateur USB.

- Cet appareil ne peut pas reconnaître les périphériques USB raccordés au moyen d'un concentrateur USB.

---

### La lecture sur un périphérique USB exige un délai de démarrage plus long.

- Le périphérique USB contient de nombreux fichiers ou une structure de fichiers complexe.

### Le son est intermittent.

- Il est possible que le son soit intermittent à un débit binaire élevé.
- La lecture des fichiers DRM (Gestion des droits numériques) pourrait être impossible dans certains cas.

---

### Impossible de lire le fichier audio.

- Les systèmes de fichier autres que FAT16, FAT32 ou exFAT d'un périphérique USB ne sont pas pris en charge.\*

\* Cet appareil prend en charge les systèmes FAT16, FAT32 et exFAT. Par contre, certains périphériques USB pourraient ne pas prendre en charge ces systèmes FAT. Pour plus de détails, reportez-vous au mode d'emploi de chacun des périphériques USB ou communiquez avec le fabricant.

---

### Impossible d'accéder à la plage suivante ou précédente.

- Pendant que [\*] est affiché après le raccordement du périphérique USB, l'appareil est occupé à lire la structure de fichiers du périphérique. Attendez que la lecture soit terminée.

---

### La fréquence d'échantillonnage et la résolution ne s'affichent pas ou une fréquence d'échantillonnage et une résolution incorrectes s'affichent.

- Vérifiez que les contenus du périphérique USB comportent les informations de fréquence d'échantillonnage et de résolution.
- Attendez un instant, puis appuyez de nouveau sur DSPL. La lecture des informations peut prendre quelques instants.
- Lorsqu'un iPod/iPhone est raccordé à USB1 ou USB2, la fréquence d'échantillonnage et la résolution ne s'affichent pas.

## Lecture USB DAC

### Aucun son.

- Vérifiez que le périphérique prenant en charge le format audio USB haute résolution et l'appareil sont correctement raccordés.
- Vérifiez que les réglages du périphérique prenant en charge le format audio USB haute résolution sont correctement configurés.

---

### La fréquence d'échantillonnage et la résolution ne s'affichent pas ou une fréquence d'échantillonnage et une résolution incorrectes s'affichent.

- Vérifiez que les réglages du périphérique prenant en charge le format audio USB haute résolution et du logiciel ou de l'application de lecture audio sont correctement configurés.
- Attendez un instant, puis appuyez de nouveau sur DSPL. La lecture des informations peut prendre quelques instants.
- Selon le logiciel ou l'application de lecture audio, la résolution affichée pourrait être différente de la résolution réelle du fichier audio.

## Fonctionnement avec un ordinateur

### Aucun son n'est émis ou le son n'est pas émis correctement.

- L'appareil ne reconnaît pas l'ordinateur en tant que périphérique USB.
  - Redémarrez votre ordinateur.
  - Installez le pilote logiciel « Sony USB Device Driver » sur votre ordinateur Windows s'il n'est pas installé. Pour plus de détails sur le pilote logiciel, visitez le site d'assistance à l'adresse indiquée sur la couverture arrière.  
Pour l'installation, reportez-vous au manuel d'aide de votre ordinateur.

- Augmentez le volume de votre ordinateur ou logiciel.
- L'ordinateur est raccordé à l'appareil pendant que le logiciel de lecture audio est en cours d'utilisation.
  - Redémarrez le logiciel de lecture audio sur l'ordinateur.
- Vérifiez que le logiciel de lecture audio en cours d'utilisation est compatible avec les fichiers audio haute résolution. L'utilisation de « Hi-Res Audio Player » ou « Media Go » est recommandée. Pour plus de détails, visitez le site d'assistance à l'adresse indiquée sur la couverture arrière.
- L'ordinateur passe en mode de veille ou de mise en veille prolongée pendant la lecture.
  - Redémarrez le logiciel de lecture audio sur l'ordinateur.
- Vérifiez que les paramètres de périphérique audio de votre ordinateur sont configurés correctement. Pour plus de détails, reportez-vous au manuel fourni avec votre ordinateur.
- Annulez l'atténuation sonore de votre ordinateur ou du logiciel de lecture audio.
- Vérifiez que le lecteur de CD-ROM prenant en charge la fonction de reproduction numérique est utilisé.

## Fonction NFC

### Impossible d'établir la connexion par simple contact (NFC).

- Le signal BLUETOOTH de cet appareil n'est pas activé.
  - Appuyez sur la touche MENU de la télécommande et maintenez-la enfoncée, sélectionnez [BT Setting] → [BT Signal], puis appuyez sur ENTER.
- Si le téléphone intelligent ne répond pas au contact.
  - Vérifiez que la fonction NFC du téléphone intelligent est activée.
  - Rapprochez le symbole N du téléphone intelligent du symbole N de cet appareil.
  - Si le téléphone intelligent est placé dans un étui, retirez ce dernier.
- La sensibilité de réception NFC varie en fonction du périphérique. Si la connexion par simple contact avec le téléphone intelligent échoue à plusieurs reprises, établissez la connexion BLUETOOTH manuellement.

## Fonction BLUETOOTH

### Le périphérique à connecter ne détecte pas cet appareil.

- Avant d'effectuer le pairage, réglez cet appareil en mode de veille de pairage.
- Pendant la connexion avec un périphérique BLUETOOTH, cet appareil ne peut pas être détecté par un autre périphérique.
  - Désactivez la connexion en cours et recherchez cet appareil à partir de l'autre périphérique.
- Une fois le pairage du périphérique effectué, activez la transmission du signal BLUETOOTH (page 11).

### Impossible d'établir la connexion.

- La connexion est contrôlée à partir d'un côté (cet appareil ou le périphérique BLUETOOTH), mais pas des deux.
  - Établissez la connexion à cet appareil à partir d'un périphérique BLUETOOTH ou vice versa.

### Le nom du périphérique détecté ne s'affiche pas.

- Selon l'état de l'autre périphérique, il peut être impossible d'obtenir un nom.

### Pas de sonnerie.

- Réglez le volume en tournant la molette de volume pendant la réception d'un appel.
- Selon le périphérique à connecter, la sonnerie peut ne pas être émise correctement.
  - Réglez [Ring Tone] à [TONE 1] (page 20).
- La sonnerie est émise uniquement par un appareil audio raccordé à FRONT AUDIO OUT.
  - Raccordez un appareil audio à FRONT AUDIO OUT de l'appareil.

### La voix de l'appelant est inaudible.

- La voix de l'appelant est émise uniquement par un appareil audio raccordé à FRONT AUDIO OUT.
  - Raccordez un appareil audio à FRONT AUDIO OUT de l'appareil.

### Un interlocuteur trouve le volume trop faible ou trop élevé.

- Réglez le volume en conséquence à l'aide du réglage de gain de micro (page 16).

### Il y a de l'écho ou des parasites pendant les conversations téléphoniques.

- Réduisez le volume.
- Réglez le mode EC/NC à [ECNC 1] ou [ECNC 2] (page 16).
- Si le niveau de bruit environnant est plus élevé que celui de l'appel téléphonique, essayez de réduire ce bruit. Par exemple, si une fenêtre est ouverte et que le niveau de bruit de la rue, etc., est élevé, fermez la fenêtre. Si la climatisation produit beaucoup de bruit, réduisez son intensité.

---

**La qualité sonore du téléphone est mauvaise.**

- La qualité sonore du téléphone dépend des conditions de réception du téléphone cellulaire.
  - Si la réception est mauvaise, déplacez votre véhicule dans un endroit permettant d'améliorer la réception du signal.

---

**Le volume du périphérique audio connecté est faible (ou élevé).**

- Le niveau de volume varie d'un périphérique audio à l'autre.
  - Réglez le volume du périphérique audio connecté ou de cet appareil.

---

**Le son est saccadé pendant la lecture d'un périphérique audio BLUETOOTH.**

- Réduisez la distance entre l'appareil et le périphérique audio BLUETOOTH.
- Si le périphérique audio BLUETOOTH est rangé dans un étui qui interrompt le signal, sortez-le de cet étui pendant l'utilisation.
- Plusieurs périphériques BLUETOOTH ou autres périphériques qui émettent des ondes radio sont utilisés à proximité.
  - Éteignez les autres périphériques.
  - Augmentez la distance des autres périphériques.
- Le son de la lecture s'interrompt momentanément lorsque la connexion entre cet appareil et le téléphone cellulaire est en cours. Il ne s'agit pas d'un problème de fonctionnement.

---

**Impossible de commander le périphérique audio BLUETOOTH connecté.**

- Assurez-vous que le périphérique audio BLUETOOTH connecté soit compatible avec le profil AVRCP.

---

**Certaines fonctions sont inopérantes.**

- Assurez-vous que le périphérique à connecter soit compatible avec les fonctions en question.

---

**Un appel commence involontairement.**

- Le téléphone à connecter est réglé pour répondre à un appel automatiquement.

---

**Échec du pairage dans le temps alloué.**

- Selon le périphérique à connecter, le temps alloué pour le pairage peut être court.
  - Essayez de terminer le pairage dans le temps alloué.

---

**La fonction BLUETOOTH est inopérante.**

- Appuyez sur OFF pendant plus de 2 secondes pour éteindre l'appareil, puis rallumez-le.

---

**Aucun son n'est émis par les haut-parleurs du véhicule lors d'un appel en mains libres.**

- Si le son est émis par le téléphone cellulaire, réglez ce dernier de façon à ce qu'il émette le son au moyen des haut-parleurs du véhicule.

---

**Utilisation de SongPal**

---

**Le nom d'application ne correspond pas à l'application actuelle dans « SongPal ».**

- Démarrez l'application à nouveau à partir de l'application « SongPal ».

---

**Pendant l'utilisation de l'application « SongPal » via BLUETOOTH, l'affichage passe automatiquement à [BT Audio].**

- L'application « SongPal » ou la fonction BLUETOOTH n'a pas fonctionné adéquatement.
- Redémarrez l'application.

---

**L'application « SongPal » est automatiquement déconnectée lorsque l'affichage passe à [iPod1] ou [iPod2].**

- L'application « SongPal » sur le iPhone/iPod ne prend pas en charge la lecture d'un iPod.
  - Changez la source de l'appareil en sélectionnant une option autre que [iPod1] ou [iPod2], puis établissez la connexion « SongPal » (page 17).

---

**Affichage des erreurs et messages**

---

**Pour la lecture de périphérique USB**

---

**Device Error** : Le périphérique USB ne peut pas être lu.

- Raccordez le périphérique USB de nouveau.

---

**No Device** : Le périphérique USB n'est pas raccordé ou reconnu.

- Assurez-vous que le périphérique USB ou son câble est solidement raccordé.
- Un périphérique USB en mode MTP ne sera pas disponible.
  - Réglez le mode de raccordement USB à MSC.

---

**No Music** : Il n'y a aucun fichier à lire.

- Raccordez un périphérique USB avec des fichiers lisibles (page 23).
- Vérifiez que le dossier « Music » est situé directement sous le répertoire racine du périphérique USB et que des fichiers lisibles sont enregistrés dans le dossier.

---

**No Output** : Les signaux sonores ne sont pas émis par la borne OPTICAL OUT.

- Aucun son n'est émis par la borne OPTICAL OUT pendant que la lecture au format DSD natif est effectuée via le port USB micro-B.

---

**No Support** : Le périphérique USB n'est pas pris en charge.

- Pour plus de détails sur la compatibilité de votre périphérique USB, visitez notre site d'assistance à l'adresse indiquée sur la couverture arrière.
- Les concentrateurs USB ne sont pas pris en charge.

---

**Overload** : Le périphérique USB est saturé.

- Débranchez le périphérique USB, puis changez la source en appuyant sur SRC.
- Le périphérique USB présente une défaillance ou un périphérique non pris en charge est raccordé.

---

**Please Wait** : Lecture d'informations en cours.

- Attendez que la lecture soit terminée et la lecture commence automatiquement. Selon l'organisation des fichiers, cette opération peut prendre quelques instants.

## Pour la fonction BLUETOOTH :

---

**No Device** : Le périphérique BLUETOOTH n'est pas raccordé ou reconnu.

- Assurez-vous que le périphérique BLUETOOTH est solidement raccordé ou que la connexion BLUETOOTH est établie avec le périphérique BLUETOOTH.

## Pour l'utilisation de SongPal :

---

**APP List** : La liste de contenus de la fonction USB est ouverte.

- Quittez la liste de l'application pour permettre le fonctionnement à l'aide des touches.

---

**APP Menu** : Un affichage de réglage de l'application est ouvert.

- Quittez l'affichage de réglage de l'application pour permettre le fonctionnement à l'aide des touches.

---

**Disconnect** : L'application est déconnectée.

- Établissez la connexion « SongPal » (page 17).

---

**Open APP** : L'application « SongPal » ne fonctionne pas actuellement.

- Démarrez l'application.

---

**Settings** : Un affichage de réglage sonore, de réglage général ou de réglage BLUETOOTH de l'application est ouvert.

- Quittez l'affichage de réglage de l'application pour permettre le fonctionnement à l'aide des touches.

Si ces solutions ne permettent pas d'améliorer la situation, contactez votre détaillant Sony le plus proche.

### Mises en garde

- Rassemblez tous les câbles de mise à la masse en un point de masse commun.
- Évitez de fixer des vis sur les câbles ou de coincer ceux-ci dans les pièces mobiles (par exemple, le rail du siège).
- Avant d'effectuer les raccordements, coupez le contact du véhicule pour éviter un court-circuit.
- Lorsque vous effectuez les raccordements de l'alimentation, assurez-vous de connecter le connecteur ⑤ en premier, puis le connecteur ⑥.
- Raccordez les câbles d'alimentation **jaune** et **rouge** seulement après avoir terminé le raccordement de tous les autres câbles.
- Pour des raisons de sécurité, veillez à isoler avec du ruban isolant tout câble libre non raccordé.

### Pour votre sécurité

Pour éviter de causer un accident de la route, assurez-vous que les câbles raccordés ne gênent pas la conduite ou le fonctionnement des coussins de sécurité gonflables.

### Précautions

- Choisissez soigneusement l'emplacement d'installation pour que l'appareil ne gêne pas le conducteur pendant la conduite.
- Évitez d'installer l'appareil à un endroit exposé à la poussière, à la saleté, à des vibrations excessives ou à des températures élevées comme en plein soleil ou à proximité de conduits de chauffage.
- Pour garantir un montage sûr, n'utilisez que la quincaillerie fournie.

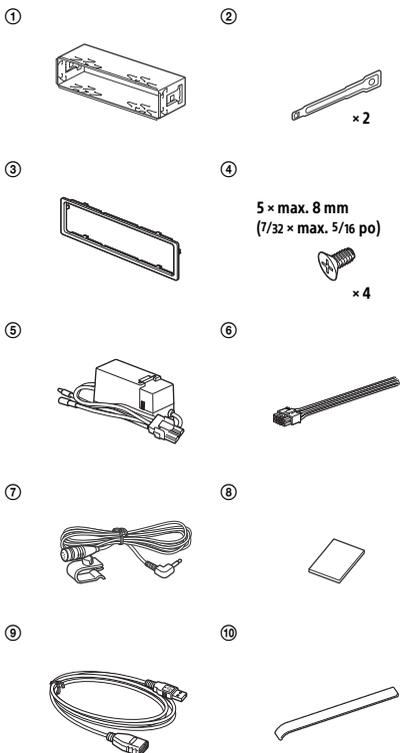

### Remarque concernant le câble d'alimentation (jaune)

Lorsque cet appareil est raccordé à d'autres éléments stéréo, la valeur nominale du circuit du véhicule sur lequel l'appareil sera raccordé doit être supérieure à la somme des fusibles de chaque élément.

### Réglage de l'angle de montage

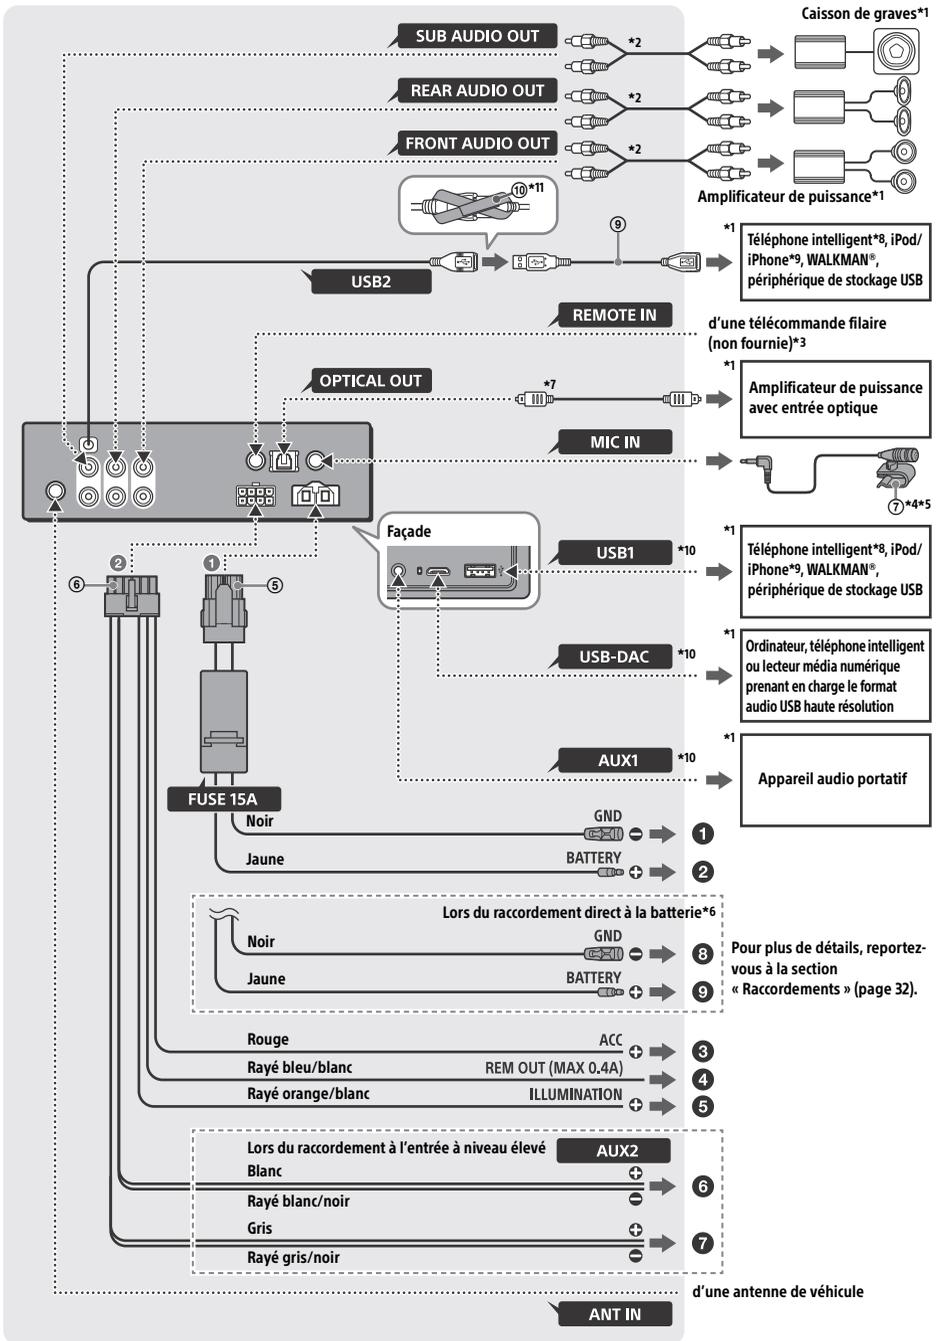

Régalez l'inclinaison à un angle inférieur à 45 degrés.

## Liste des pièces nécessaires à l'installation

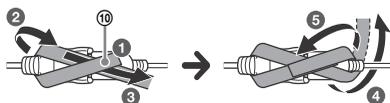

- Cette liste de pièces ne comprend pas tout le contenu de l'emballage.
- Le support ① et le tour de protection ③ sont fixés en usine. Avant l'installation de l'appareil, utilisez les clés de déblocage ② pour détacher le support ① de l'appareil. Pour plus de détails, reportez-vous à la section « Retrait du tour de protection et du support » (page 34).
- Conservez les clés de déblocage ② pour une utilisation ultérieure, car vous en aurez également besoin pour retirer l'appareil du véhicule.

# Raccordement

- \*1 Non fourni
- \*2 Cordon à broche RCA (non fourni)
- \*3 Selon le type de véhicule, utilisez un adaptateur pour une télécommande filaire (non fourni).
- \*4 Qu'il soit utilisé ou non, faites passer le cordon d'entrée du microphone de manière à ce qu'il ne gêne pas la conduite. Fixez le cordon avec un serre-câbles, etc., s'il se trouve au niveau de vos pieds.
- \*5 Pour plus de détails sur l'installation du microphone, reportez-vous à la section « Installation du microphone, reportez-vous à la section « Installation du microphone » (page 33).
- \*6 Lorsque l'intensité en ampères du fusible utilisé dans votre voiture est 10 A, effectuez le raccordement de l'alimentation directement à la batterie pour éviter un court-circuit.
- \*7 Lorsque vous effectuez le raccordement optique, un câble optique (non fourni) est requis.
- \*8 Pour raccorder un téléphone intelligent à l'appareil principal, un câble approprié (non fourni) est requis.
- \*9 Pour raccorder un iPod/iPhone, utilisez le câble de raccordement USB pour iPod (non fourni).
- \*10 Pour plus de détails sur le raccordement, reportez-vous à la section « Guide de raccordement d'un appareil audio » (page 7).
- \*11 Pour maintenir les connecteurs, enroulez la fixation adhésive 10 autour du col des connecteurs, puis rassemblez les extrémités de la fixation adhésive.

## Raccordements

- 1 À un point de mise à la masse commun**  
Raccordez d'abord le câble de mise à la masse noir et ensuite les câbles d'alimentation jaune et rouge.
- 2 À la borne d'alimentation +12 V qui est alimentée en permanence**  
Raccordez d'abord le câble de mise à la masse noir à un point de mise à la masse commun.
- 3 À la borne d'alimentation +12 V qui est alimentée lorsque la clé de contact est à la position accessoires**  
S'il n'y a pas de position accessoires, raccordez à la borne d'alimentation (batterie) +12 V qui est alimentée en permanence.  
Raccordez d'abord le câble de mise à la masse noir à un point de mise à la masse commun.
- 4 Au câble de commande d'antenne électrique ou au câble d'alimentation de l'amplificateur d'antenne**  
Il n'est pas nécessaire de raccorder ce câble s'il n'y a pas d'antenne électrique ni d'amplificateur d'antenne ou avec une antenne télescopique manuelle.

### Au niveau de AMP REMOTE IN de l'amplificateur de puissance en option

Ce raccordement s'applique uniquement aux amplificateurs et à une antenne électrique. Le raccordement de tout autre système risque d'endommager l'appareil.

- 5 Vers le signal d'éclairage de la voiture**  
Raccordez d'abord le câble de mise à la masse noir à un point de mise à la masse commun.

### Lors du raccordement à l'entrée à niveau élevé

Pour plus de détails, reportez-vous à la section « Raccordement à l'entrée à niveau élevé » (page 33).

- 6 Vers la sortie de haut-parleur gauche (blanc) d'un appareil audio**
- 7 Vers la sortie de haut-parleur droit (gris) d'un appareil audio**

### Lors du raccordement direct à la batterie

Lorsque l'intensité en ampères du fusible utilisé dans votre voiture est 10 A, effectuez le raccordement de l'alimentation directement à la batterie pour éviter un court-circuit.

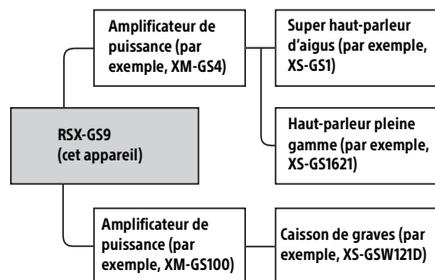

- 8 À un point métallique de la voiture**
- 9 À la borne positive de la batterie**

#### Remarques

- Bien qu'il soit raccordé au câble d'alimentation de la voiture, l'appareil pourrait ne pas offrir un niveau de performance optimal en raison d'une alimentation insuffisante. En pareil cas, effectuez le raccordement de l'alimentation directement à la batterie.
- Assurez-vous que les fils de batterie raccordés à la voiture (mise à la masse au châssis) sont d'un calibre au moins égal à celui du fil d'alimentation principal permettant de raccorder la batterie à l'appareil principal.

Si vous avez des questions ou des problèmes concernant le raccordement, contactez le détaillant pour obtenir plus de détails.

## Système audio USB haute résolution recommandé

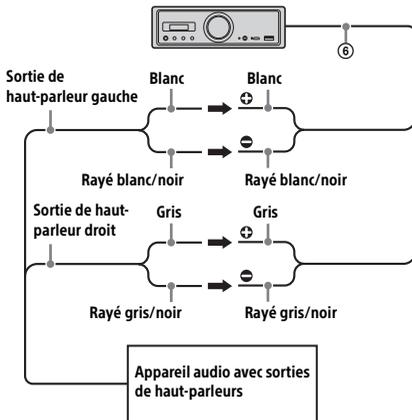

### Remarque

Certains produits indiqués dans le schéma pourraient ne pas être disponibles dans votre pays ou région.

## Raccordement à l'entrée à niveau élevé

Pour plus de détails sur le raccordement, reportez-vous au manuel fourni avec votre appareil audio.

## Raccordement optique

- Cette borne OPTICAL OUT est conçue pour le raccordement d'un amplificateur de puissance muni d'une entrée optique. Lorsqu'un autre appareil numérique est raccordé, les fonctions de l'appareil pourraient ne pas fonctionner correctement.
- Lorsque vous effectuez les raccordements, ne pliez pas le câble optique (non fourni). Cela pourrait entraîner une interruption du son.
- Lorsque le raccordement optique est effectué :
  - réglez [Optical Out] à [48kHz] ou [96kHz] pour l'activer.
  - les commandes de volume de l'appareil et de la télécommande sont inopérantes.
  - [Subwoofer], [Pos Custom], [Pos Preset], [EQ10 Preset], [Balance], [Fader], [Loudness] et [DSEE HX] sont automatiquement réglés à [OFF].
  - Aucun son n'est émis pendant que la lecture au format DSD natif est effectuée via le port USB micro-B.

## Raccordement de l'amplificateur de puissance

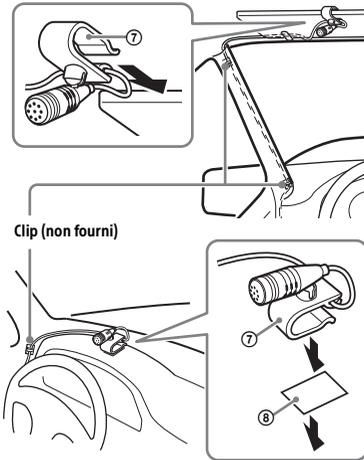

En présence de bruit inhabituel, cessez d'utiliser l'appareil et l'amplificateur de puissance qui ne prend pas en charge le format audio haute résolution.

## Raccordement pour la conservation de la mémoire

Lorsque le câble d'alimentation jaune est raccordé, le circuit de la mémoire est alimenté en permanence même si la clé de contact est à la position d'arrêt.

## Installation du microphone

Pour capter votre voix pendant les appels en mains libres, vous devez installer le microphone ⑦.

## Mises en garde

- Il est extrêmement dangereux de laisser le cordon s'enrouler autour de la colonne de direction ou du levier de vitesses. Assurez-vous de placer le cordon et les autres pièces de manière à ce qu'ils ne gênent pas la conduite.
- Si des coussins gonflables ou d'autres équipements amortisseurs sont installés dans votre voiture, contactez le magasin où vous avez acheté cet appareil ou le concessionnaire automobile avant l'installation.

### Remarque

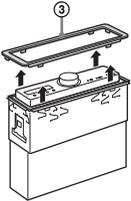

Avant de fixer l'adhésif double face ⑧, nettoyez la surface du tableau de bord avec un chiffon sec.

# Installation

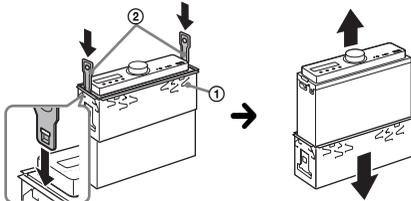

## Retrait du tour de protection et du support

Avant d'installer l'appareil, retirez le tour de protection ③ et le support ① de l'appareil.

- 1 Pincez les deux bords du tour de protection ③, puis sortez-le.

- 2 Insérez les clés de déblocage ② en même temps jusqu'au déclic. Tirez le support ① vers le bas, puis tirez sur l'appareil vers le haut pour les séparer.

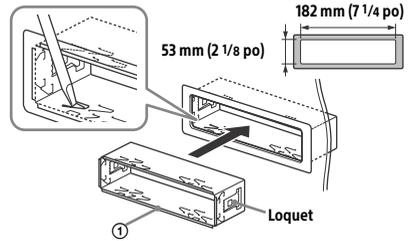

Tourner le crochet vers l'intérieur.

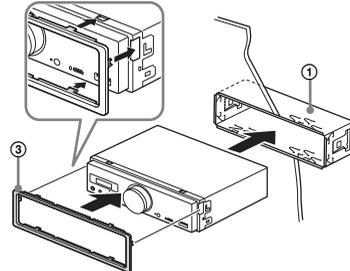

## Installation de l'appareil dans le tableau de bord

Avant l'installation, assurez-vous que les loquets des deux côtés du support ① sont bien pliés de 2 mm (3/32 po) vers l'intérieur. Lors de l'installation de l'appareil dans un véhicule japonais, consultez « Installation de l'appareil dans un véhicule japonais » (page 35).

- 1 Positionnez le support ① à l'intérieur du tableau de bord, puis pliez les griffes vers l'extérieur pour assurer une prise correcte.

- 2 Insérez l'appareil dans le support ①, puis fixez le tour de protection ③.

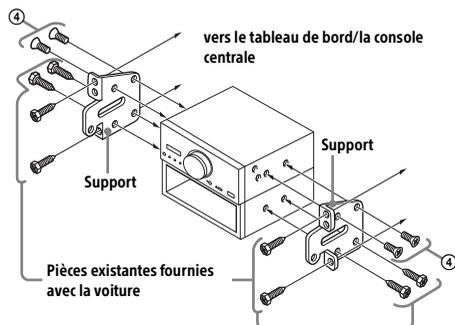

### Remarques

- Si les loquets sont droits ou pliés vers l'extérieur, l'appareil ne peut pas être fixé solidement et peut se détacher.
- Assurez-vous que les 4 loquets situés sur le tour de protection ③ sont correctement engagés dans les fentes de l'appareil.

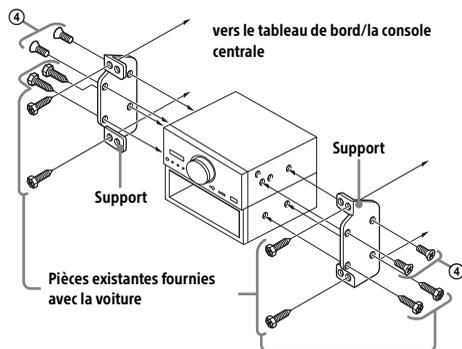

## Installation de l'appareil dans un véhicule japonais

Cet appareil ne peut pas être installé dans certaines voitures japonaises. Dans ce cas, consultez votre détaillant Sony.

### TOYOTA

### NISSAN

### Remarque

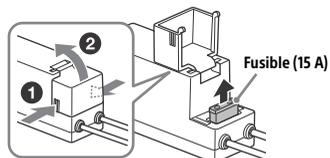

Pour éviter tout problème de fonctionnement, utilisez uniquement les vis fournies ④ pour l'installation.

## Réinitialisation de l'appareil

Pour plus de détails, reportez-vous à la section « Réinitialisation de l'appareil » (page 9).

## Remplacement du fusible

Lorsque vous remplacez le fusible, veillez à utiliser un fusible dont l'intensité, en ampères, correspond à la valeur indiquée sur le fusible original. Si le fusible grille, vérifiez le raccordement de l'alimentation et remplacez le fusible. Si le fusible neuf grille également, il est possible que l'appareil soit défectueux. Dans ce cas, consultez votre détaillant Sony le plus proche.

### Remarque

Utilisez un outil approprié pour remplacer le fusible.

## Important information on software

This section covers the software used by this unit.

## Informations importantes sur le logiciel

Cette section traite du logiciel utilisé par cet appareil.

## Software License Information

### NOTICES AND LICENSES FOR SOFTWARE USED IN THIS PRODUCT

Required public statement & License for GPL/LGPL licensed software used in this product

This product contains software that is subject to the following GNU General Public License ("GPL") or GNU Lesser General Public License ("LGPL"). These establish that customers have the right to acquire, modify, and redistribute the source code of said software in accordance with the terms of the GPL or the LGPL.

#### Package List

Please note that Sony cannot answer or respond to any inquiries regarding the content of this source code.

### GNU GENERAL PUBLIC LICENSE

Version 2, June 1991

Copyright (C) 1989, 1991 Free Software Foundation, Inc.,  
51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA  
Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

#### Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software - to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Lesser General Public License instead.) You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have

the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and modification follow.

#### GNU GENERAL PUBLIC LICENSE TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you".

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.

b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.

c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:

- a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

- b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,

- c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)

The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License.

However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.
6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein.

You are not responsible for enforcing compliance by third parties to this License.

7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do

not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.

10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

## NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

## END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Programs

If you develop a new program, and you want it to be of the greatest possible use to the public, the best way to achieve this is to make it free

software which everyone can redistribute and change under these terms.

To do so, attach the following notices to the program. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty, and each file should have at least the "copyright" line and a pointer to where the full notice is found.

<one line to give the program's name and a brief idea of what it does.>  
Copyright (C) <year> <name of author>

This program is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation; either version 2 of the License, or (at your option) any later version.

This program is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU General Public License for more details.

You should have received a copy of the GNU General Public License along with this program; if not, write to the Free Software Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA.

Also add information on how to contact you by electronic and paper mail.

If the program is interactive, make it output a short notice like this when it starts in an interactive mode:

Gnomovision version 69, Copyright (C) year name of author  
Gnomovision comes with ABSOLUTELY NO WARRANTY; for details type 'show w'.  
This is free software, and you are welcome to redistribute it under certain conditions; type 'show c' for details.

The hypothetical commands 'show w' and 'show c' should show the appropriate parts of the General Public License. Of course, the commands you use may be called something other than 'show w' and 'show c'; they could even be mouse-clicks or menu items--whatever suits your program.

You should also get your employer (if you work as a programmer) or your school, if any, to sign a "copyright disclaimer" for the program, if necessary. Here is a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest in the program 'Gnomovision' (which makes passes at compilers) written by James Hacker.

<signature of Ty Coon>, 1 April 1989  
Ty Coon, President of Vice

This General Public License does not permit incorporating your program into proprietary programs. If your program is a subroutine library, you may consider it more useful to permit linking proprietary applications with the library. If this is what you want to do, use the GNU Lesser General Public License instead of this License.

## GNU LIBRARY GENERAL PUBLIC LICENSE

Version 2, June 1991

Copyright (C) 1991 Free Software Foundation, Inc.  
675 Mass Ave, Cambridge, MA 02139, USA

Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

[This is the first released version of the library GPL. It is numbered 2 because it goes with version 2 of the ordinary GPL.]

### Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public Licenses are intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users.

This license, the Library General Public License, applies to some specially designated Free Software Foundation software, and to any other libraries whose authors decide to use it. You can use it for your libraries, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the library, or if you modify it.

For example, if you distribute copies of the library, whether gratis or for a fee, you must give the recipients all the rights that we gave you. You must make sure that they, too, receive or can get the source code. If you link a program with the library, you must provide complete object files to the recipients so that they can relink them with the library, after making changes to the library and recompiling it. And you must show them these terms so they know their rights.

Our method of protecting your rights has two steps: (1) copyright the library, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the library.

Also, for each distributor's protection, we want to make certain that everyone understands that there is no warranty for this free library. If the library is modified by someone else and passed on, we want its recipients to know that what they have is not the original version, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that companies distributing free software will individually obtain patent licenses, thus in effect transforming the program into proprietary software. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

Most GNU software, including some libraries, is covered by the ordinary GNU General Public License, which was designed for utility programs. This license, the GNU Library General Public License, applies to certain designated libraries. This license is quite different from the ordinary one; be sure to read it in full, and don't assume that anything in it is the same as in the ordinary license.

The reason we have a separate public license for some libraries is that they blur the distinction we usually make between modifying or adding to a program and simply using it. Linking a program with a library, without changing the library, is in some sense simply using the library, and is analogous to running a utility program or application program. However, in a textual and legal sense, the linked executable is a combined work, a derivative of the original library, and the ordinary General Public License treats it as such.

Because of this blurred distinction, using the ordinary General Public License for libraries did not effectively promote software sharing, because most developers did not use the libraries. We concluded that weaker conditions might promote sharing better.

However, unrestricted linking of non-free programs would deprive the users of those programs of all benefit from the free status of the libraries themselves. This Library General Public License is intended to permit developers of non-free programs to use free libraries, while preserving your freedom as a user of such programs to change the free libraries that are incorporated in them. (We have not seen how to achieve this as regards changes in header files, but we have achieved it as regards changes in the actual functions of the library.) The hope is that this will lead to faster development of free libraries.

The precise terms and conditions for copying, distribution and modification follow. Pay close attention to the difference between a "work based on the library" and a "work that uses the library". The former contains code derived from the library, while the latter only works together with the library.

Note that it is possible for a library to be covered by the ordinary General Public License rather than by this special one.

## GNU LIBRARY GENERAL PUBLIC LICENSE TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License Agreement applies to any software library which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms of this Library General Public License (also called "this License"). Each licensee is addressed as "you".

A "library" means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables.

The "Library", below, refers to any such software library or work which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or translated

straightforwardly into another language. (Hereinafter, translation is included without limitation in the term "modification".)

"Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library.

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether that is true depends on what the Library does and what the program that uses the Library does.

1. You may copy and distribute verbatim copies of the Library's complete source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and distribute a copy of this License along with the Library.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Library or any portion of it, thus forming a work based on the Library, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

- a) The modified work must itself be a software library.
- b) You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change.
- c) You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License.
- d) If a facility in the modified Library refers to a function or a table of data to be supplied by an application program that uses the facility, other than as an argument passed when the facility is invoked, then you must make a good faith effort to ensure that, in the event an application does not supply such function or table, the facility still operates, and performs whatever part of its purpose remains meaningful.

(For example, a function in a library to compute square roots has a purpose that is entirely well-defined independent of the application. Therefore, Subsection 2d requires that any application-supplied function or table used by this function must be optional: if the application does not supply it, the square root function must still compute square roots.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Library, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Library, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Library.

In addition, mere aggregation of another work not based on the Library with the Library (or with a work based on the Library) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If a newer version than version 2 of the ordinary GNU General Public License has appeared, then you can specify that version instead if you wish.) Do not make any other change in these notices.

Once this change is made in a given copy, it is irreversible for that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made from that copy.

This option is useful when you wish to copy part of the code of the Library into a program that is not a library.

4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.

If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code.

5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library". Such a work, in isolation, is not a derivative work of the Library, and therefore falls outside the scope of this License.

However, linking a "work that uses the Library" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a "work that uses the Library". The executable is therefore covered by this License. Section 6 states terms for distribution of such executables.

When a "work that uses the Library" uses material from a header file that is part of the Library, the object code for the work may be a derivative work of the Library even though the source code is not. Whether this is true is especially significant if the work can be linked without the Library, or if the work is itself a library. The threshold for this to be true is not precisely defined by law.

If such an object file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline functions (ten lines or less in length), then the use of the object file is unrestricted, regardless of whether it is legally a derivative work. (Executables containing this object code plus portions of the Library will still fall under Section 6.)

Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6. Any executables containing that work also fall under Section 6, whether or not they are linked directly with the Library itself.

6. As an exception to the Sections above, you may also compile or link a "work that uses the Library" with the Library to produce a work containing portions of the Library, and distribute that work under terms of your choice, provided that the terms permit modification of the work for the customer's own use and reverse engineering for debugging such modifications.

You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing the user to the copy of this License. Also, you must do one of these things:

- a) Accompany the work with the complete corresponding machine-readable source code for the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above); and, if the work is an executable linked with the Library, with the complete machine-readable "work that uses the Library", as object code and/or source code, so that the user can modify the Library and then relink to produce a modified executable containing the modified Library. (It is understood that the user who changes the contents of definitions files in the Library will not necessarily be able to recompile the application to use the modified definitions.)
- b) Accompany the work with a written offer, valid for at least three years, to give the same user the materials specified in Subsection 6a, above, for a charge no more than the cost of performing this distribution.
- c) If distribution of the work is made by offering access to copy from a designated place, offer equivalent access to copy the above specified materials from the same place.
- d) Verify that the user has already received a copy of these materials or that you have already sent this user a copy.

For an executable, the required form of the "work that uses the Library" must include any data and utility programs needed for reproducing the executable from it. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

It may happen that this requirement contradicts the license restrictions of other proprietary libraries that do not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together in an executable that you distribute.

7. You may place library facilities that are a work based on the Library side-by-side in a single library together with other library facilities not covered by this License, and distribute such a combined library, provided that the separate distribution of the work based on the Library and of the other library facilities is otherwise permitted, and provided that you do these two things:
  - a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities. This must be distributed under the terms of the Sections above.
  - b) Give prominent notice with the combined library of the fact that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.
8. You may not copy, modify, sublicense, link with, or distribute the Library except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, link with, or distribute the Library is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.
9. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Library (or any work based on the Library), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Library or works based on it.
10. Each time you redistribute the Library (or any work based on the Library), the recipient automatically receives a license from the original licensor to copy, distribute, link with or modify the Library subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

11. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Library at all. For example, if a patent license would not permit royalty-free redistribution of the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Library.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply, and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

12. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not so excluded. In such case, this License incorporates the limitation as if written in the body of this License.
13. The Free Software Foundation may publish revised and/or new versions of the Library General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Library does not specify a license version number, you may choose any version ever published by the Free Software Foundation.

14. If you wish to incorporate parts of the Library into other free programs whose distribution conditions are incompatible with these, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

## NO WARRANTY

15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE LIBRARY "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.
16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

## END OF TERMS AND CONDITIONS

Appendix: How to Apply These Terms to Your New Libraries

If you develop a new library, and you want it to be of the greatest possible use to the public, we recommend making it free software that everyone can redistribute and change. You can do so by permitting redistribution under these terms (or, alternatively, under the terms of the ordinary General Public License).

To apply these terms, attach the following notices to the library. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

<one line to give the library's name and a brief idea of what it does.>  
Copyright (C) <year> <name of author>

This library is free software; you can redistribute it and/or modify it under the terms of the GNU Library General Public License as published by the Free Software Foundation; either version 2 of the License, or (at your option) any later version.

This library is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU Library General Public License for more details.

You should have received a copy of the GNU Library General Public License along with this library; if not, write to the Free Software Foundation, Inc., 675 Mass Ave, Cambridge, MA 02139, USA.

Also add information on how to contact you by electronic and paper mail.

You should also get your employer (if you work as a programmer) or your school, if any, to sign a "copyright disclaimer" for the library, if necessary. Here is a sample; alter the names:

Yooyodyne, Inc., hereby disclaims all copyright interest in the library 'Frob' (a library for tweaking knobs) written by James Random Hacker.

<signature of Ty Coon>, 1 April 1990  
Ty Coon, President of Vice

That's all there is to it!

# GNU LESSER GENERAL PUBLIC LICENSE

Version 2.1, February 1999

Copyright (C) 1991, 1999 Free Software Foundation, Inc.  
51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA  
Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

[This is the first released version of the Lesser GPL. It also counts as the successor of the GNU Library Public License, version 2, hence the version number 2.1.]

## Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public Licenses are intended to guarantee you freedom to share and change free software--to make sure the software is free for all its users.

This license, the Lesser General Public License, applies to some specially designed software packages--typically libraries--of the Free Software Foundation and other authors who decide to use it. You can use it too, but we suggest you first think carefully about whether this license or the ordinary General Public License is the better strategy to use in any particular case, based on the explanations below.

When we speak of free software, we are referring to freedom of use, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish); that you receive source code or can get it if you want it; that you can change the software and use pieces of it in new free programs; and that you are informed that you can do these things.

To protect your rights, we need to make restrictions that forbid distributors to deny you these rights or to ask you to surrender these rights. These restrictions translate to certain responsibilities for you if you distribute copies of the library or if you modify it.

For example, if you distribute copies of the library, whether gratis or for a fee, you must give the recipients all the rights that we gave you. You must make sure that they, too, receive or can get the source code. If you link other code with the library, you must provide complete object files to the recipients, so that they can relink them with the library after making changes to the library and recompiling it. And you must show them these terms so they know their rights.

We protect your rights with a two-step method: (1) we copywrite the library, and (2) we offer you this license, which gives you legal permission to copy, distribute and/or modify the library.

To protect each distributor, we want to make it very clear that there is no warranty for the free library. Also, if the library is modified by someone else and passed on, the recipients should know that what they have is not the original version, so that the original author's reputation will not be affected by problems that might be introduced by others.

Finally, software patents pose a constant threat to the existence of any free program. We wish to make sure that a company cannot effectively restrict the users of a free program by obtaining a restrictive license from a patent holder. Therefore, we insist that any patent license obtained for a version of the library must be consistent with the full freedom of use specified in this license.

Most GNU software, including some libraries, is covered by the ordinary GNU General Public License. This license, the GNU Lesser General Public License, applies to certain designated libraries, and is quite different from the ordinary General Public License. We use this license for certain libraries in order to permit linking those libraries into non-free programs.

When a program is linked with a library, whether statically or using a shared library, the combination of the two is legally speaking a combined work, a derivative of the original library. The ordinary General Public License therefore permits such linking only if the entire combination fits its criteria of freedom. The Lesser General Public License permits more lax criteria for linking other code with the library.

We call this license the "Lesser" General Public License because it does Less to protect the user's freedom than the ordinary General Public License. It also provides other free software developers Less of an advantage over competing non-free programs. These disadvantages are the reason we use the ordinary General Public License for many libraries. However, the Lesser license provides advantages in certain special circumstances.

For example, on rare occasions, there may be a special need to encourage the widest possible use of a certain library, so that it becomes a de-facto standard. To achieve this, non-free programs must be allowed to use the library. A more frequent case is that a free library does the same job as widely used non-free libraries. In this case, there is

little to gain by limiting the free library to free software only, so we use the Lesser General Public License.

In other cases, permission to use a particular library in non-free programs enables a greater number of people to use a large body of free software. For example, permission to use the GNU C Library in non-free programs enables many more people to use the whole GNU operating system, as well as its variant, the GNU/Linux operating system.

Although the Lesser General Public License is Less protective of the users' freedom, it does ensure that the user of a program that is linked with the Library has the freedom and the wherewithal to run that program using a modified version of the Library.

The precise terms and conditions for copying, distribution and modification follow. Pay close attention to the difference between a "work based on the library" and a "work that uses the library". The former contains code derived from the library, whereas the latter must be combined with the library in order to run.

## GNU LESSER GENERAL PUBLIC LICENSE TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License Agreement applies to any software library or other program which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms of this Lesser General Public License (also called "this License"). Each licensee is addressed as "you".

A "library" means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables.

The "Library", below, refers to any such software library or work which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or translated straightforwardly into another language. (Hereinafter, translation is included without limitation in the term "modification".)

"Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library.

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether that is true depends on what the Library does and what the program that uses the Library does.

1. You may copy and distribute verbatim copies of the Library's complete source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and distribute a copy of this License along with the Library.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Library or any portion of it, thus forming a work based on the Library, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

- The modified work must itself be a software library.
- You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change.
- You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License.
- If a facility in the modified Library refers to a function or a table of data to be supplied by an application program that uses the facility, other than as an argument passed when the facility is invoked, then you must make a good faith effort to ensure that, in the event an application does not supply such function or table, the facility still operates, and performs whatever part of its purpose remains meaningful.

(For example, a function in a library to compute square roots has a purpose that is entirely well-defined independent of the application.

Therefore, Subsection 2d requires that any application-supplied function or table used by this function must be optional: if the application does not supply it, the square root function must still compute square roots.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Library, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Library, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Library.

In addition, mere aggregation of another work not based on the Library with the Library (or with a work based on the Library) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If a newer version than version 2 of the ordinary GNU General Public License has appeared, then you can specify that version instead if you wish.) Do not make any other change in these notices.

Once this change is made in a given copy, it is irreversible for that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made from that copy.

This option is useful when you wish to copy part of the code of the Library into a program that is not a library.

4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.

If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code.

5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library". Such a work, in isolation, is not a derivative work of the Library, and therefore falls outside the scope of this License.

However, linking a "work that uses the Library" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a "work that uses the Library". The executable is therefore covered by this License. Section 6 states terms for distribution of such executables.

When a "work that uses the Library" uses material from a header file that is part of the Library, the object code for the work may be a derivative work of the Library even though the source code is not. Whether this is true is especially significant if the work can be linked without the Library, or if the work is itself a library. The threshold for this to be true is not precisely defined by law.

If such an object file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline functions (ten lines or less in length), then the use of the object file is unrestricted, regardless of whether it is legally a derivative work. (Executables containing this object code plus portions of the Library will still fall under Section 6.)

Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6. Any executables containing that work also fall under Section 6, whether or not they are linked directly with the Library itself.

6. As an exception to the Sections above, you may also combine or link a "work that uses the Library" with the Library to produce a work containing portions of the Library, and distribute that work under terms of your choice, provided that the terms permit modification of the work for the customer's own use and reverse engineering for debugging such modifications.

You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing the user to the copy of this License. Also, you must do one of these things:

- a) Accompany the work with the complete corresponding machine-readable source code for the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above); and, if the work is an executable linked with the Library, with the complete machine-readable "work that uses the Library", as object code and/or source code, so that the user can modify the Library and then relink to produce a modified executable containing the modified Library. (It is understood that the user who changes the contents of definitions files in the Library will not necessarily be able to recompile the application to use the modified definitions.)
- b) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (1) uses at run time a copy of the library already present on the user's computer system, rather than copying library functions into the executable, and (2) will operate properly with a modified version of the library, if the user installs one, as long as the modified version is interface-compatible with the version that the work was made with.
- c) Accompany the work with a written offer, valid for at least three years, to give the same user the materials specified in Subsection 6a, above, for a charge no more than the cost of performing this distribution.
- d) If distribution of the work is made by offering access to copy from a designated place, offer equivalent access to copy the above specified materials from the same place.
- e) Verify that the user has already received a copy of these materials or that you have already sent this user a copy.

For an executable, the required form of the "work that uses the Library" must include any data and utility programs needed for reproducing the executable from it. However, as a special exception, the materials to be distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

It may happen that this requirement contradicts the license restrictions of other proprietary libraries that do not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together in an executable that you distribute.

7. You may place library facilities that are a work based on the Library side-by-side in a single library together with other library facilities not covered by this License, and distribute such a combined library, provided that the separate distribution of the work based on the Library and of the other library facilities is otherwise permitted, and provided that you do these two things:
  - a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities. This must be distributed under the terms of the Sections above.
  - b) Give prominent notice with the combined library of the fact that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.
8. You may not copy, modify, sublicense, link with, or distribute the Library except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, link with, or distribute the Library is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.
9. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Library (or any work based on the Library), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Library or works based on it.
10. Each time you redistribute the Library (or any work based on the Library), the recipient automatically receives a license from the original licensor to copy, distribute, link with or modify the Library subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted

herein. You are not responsible for enforcing compliance by third parties with this License.

11. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Library at all. For example, if a patent license would not permit royalty-free redistribution of the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Library.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply, and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

12. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

13. The Free Software Foundation may publish revised and/or new versions of the Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Library does not specify a license version number, you may choose any version ever published by the Free Software Foundation.

14. If you wish to incorporate parts of the Library into other free programs whose distribution conditions are incompatible with these, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

## NO WARRANTY

15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE LIBRARY "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.
16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

## END OF TERMS AND CONDITIONS

### How to Apply These Terms to Your New Libraries

If you develop a new library, and you want it to be of the greatest possible use to the public, we recommend making it free software that everyone can redistribute and change. You can do so by permitting redistribution under these terms (or, alternatively, under the terms of the ordinary General Public License).

To apply these terms, attach the following notices to the library. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

<one line to give the library's name and a brief idea of what it does.>  
Copyright (C) <year> <name of author>

This library is free software; you can redistribute it and/or modify it under the terms of the GNU Lesser General Public License as published by the Free Software Foundation; either version 2.1 of the License, or (at your option) any later version.

This library is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU Lesser General Public License for more details.

You should have received a copy of the GNU Lesser General Public License along with this library; if not, write to the Free Software Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA

Also add information on how to contact you by electronic and paper mail.

You should also get your employer (if you work as a programmer) or your school, if any, to sign a "copyright disclaimer" for the library, if necessary. Here is a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest in the library "Frob" (a library for tweaking knobs) written by James Random Hacker.

<signature of Ty Coon>, 1 April 1990  
Ty Coon, President of Vice

That's all there is to it!

## The FreeType Project LICENSE

2006-Jan-27

Copyright 1996-2002, 2006 by David Turner, Robert Wilhelm, and Werner Lemberg

## Introduction

The FreeType Project is distributed in several archive packages; some of them may contain, in addition to the FreeType font engine, various tools and contributions which rely on, or relate to, the FreeType Project.

This license applies to all files found in such packages, and which do not fall under their own explicit license. The license affects thus the FreeType font engine, the test programs, documentation and makefiles, at the very least.

This license was inspired by the BSD, Artistic, and IJG (Independent JPEG Group) licenses, which all encourage inclusion and use of free software in commercial and freeware products alike. As a consequence, its main points are that:

- o We don't promise that this software works. However, we will be interested in any kind of bug reports. ('as is' distribution)

- o You can use this software for whatever you want, in parts or full form, without having to pay us. ('royalty-free' usage)
- o You may not pretend that you wrote this software. If you use it, or only parts of it, in a program, you must acknowledge somewhere in your documentation that you have used the FreeType code. ('credits')

We specifically permit and encourage the inclusion of this software, with or without modifications, in commercial products. We disclaim all warranties covering The FreeType Project and assume no liability related to The FreeType Project.

Finally, many people asked us for a preferred form for a credit/disclaimer to use in compliance with this license. We thus encourage you to use the following text:

\*\*\*

Portions of this software are copyright c-<year> The FreeType Project ([www.freetype.org](http://www.freetype.org)). All rights reserved.

\*\*\*

Please replace <year> with the value from the FreeType version you actually use.

## Legal Terms

### 0. Definitions

Throughout this license, the terms 'package', 'FreeType Project', and 'FreeType archive' refer to the set of files originally distributed by the authors (David Turner, Robert Wilhelm, and Werner Lemberg) as the 'FreeType Project', be they named as alpha, beta or final release.

'You' refers to the licensee, or person using the project, where 'using' is a generic term including compiling the project's source code as well as linking it to form a 'program' or 'executable'. This program is referred to as 'a program using the FreeType engine'.

This license applies to all files distributed in the original FreeType Project, including all source code, binaries and documentation, unless otherwise stated in its original, unmodified form as distributed in the original archive. If you are unsure whether or not a particular file is covered by this license, you must contact us to verify this.

The FreeType Project is copyright (C) 1996-2000 by David Turner, Robert Wilhelm, and Werner Lemberg. All rights reserved except as specified below.

### 1. No Warranty

THE FREETYPE PROJECT IS PROVIDED 'AS IS' WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. IN NO EVENT WILL ANY OF THE AUTHORS OR COPYRIGHT HOLDERS BE LIABLE FOR ANY DAMAGES CAUSED BY THE USE OR THE INABILITY TO USE, OF THE FREETYPE PROJECT.

### 2. Redistribution

This license grants a worldwide, royalty-free, perpetual and irrevocable right and license to use, execute, perform, compile, display, copy, create derivative works of, distribute and sublicense the FreeType Project (in both source and object code forms) and derivative works thereof for any purpose; and to authorize others to exercise some or all of the rights granted herein, subject to the following conditions:

- o Redistribution of source code must retain this license file ("FTL.TXT") unaltered; any additions, deletions or changes to the original files must be clearly indicated in accompanying documentation. The copyright notices of the unaltered, original files must be preserved in all copies of source files.
- o Redistribution in binary form must provide a disclaimer that states that the software is based in part of the work of the FreeType Team, in the distribution documentation. We also encourage you to put an URL to the FreeType web page in your documentation, though this isn't mandatory.

These conditions apply to any software derived from or based on the FreeType Project, not just the unmodified files. If you use our work, you must acknowledge us. However, no fee need be paid to us.

### 3. Advertising

Neither the FreeType authors and contributors nor you shall use the name of the other for commercial, advertising, or promotional purposes without specific prior written permission.

We suggest, but do not require, that you use one or more of the following phrases to refer to this software in your documentation or advertising materials: 'FreeType Project', 'FreeType Engine', 'FreeType library', or 'FreeType Distribution'.

As you have not signed this license, you are not required to accept it. However, as the FreeType Project is copyrighted material, only this license, or another one contracted with the authors, grants you the right to use, distribute, and modify it. Therefore, by using, distributing, or modifying the FreeType Project, you indicate that you understand and accept all the terms of this license.

#### 4. Contacts

-----  
There are two mailing lists related to FreeType:

- o freetype@nongnu.org  
Discusses general use and applications of FreeType, as well as future and wanted additions to the library and distribution.  
If you are looking for support, start in this list if you haven't found anything to help you in the documentation.
- o freetype-devel@nongnu.org  
Discusses bugs, as well as engine internals, design issues, specific licenses, porting, etc.

Our home page can be found at  
<http://www.freetype.org>

## libpng

This copy of the libpng notices is provided for your convenience. In case of any discrepancy between this copy and the notices in the file png.h that is included in the libpng distribution, the latter shall prevail.

COPYRIGHT NOTICE, DISCLAIMER, and LICENSE:

If you modify libpng you may insert additional notices immediately following this sentence.

This code is released under the libpng license.

libpng versions 1.2.6, August 15, 2004, through 1.2.35, February 14, 2009, are Copyright (c) 2004, 2006-2008 Glenn Randers-Pehrson, and are distributed according to the same disclaimer and license as libpng-1.2.5 with the following individual added to the list of Contributing Authors

Cosmin Truta

libpng versions 1.0.7, July 1, 2000, through 1.2.5 - October 3, 2002, are Copyright (c) 2000-2002 Glenn Randers-Pehrson, and are distributed according to the same disclaimer and license as libpng-1.0.6 with the following individuals added to the list of Contributing Authors

Simon-Pierre Cadieux  
Eric S. Raymond  
Gilles Vollant

and with the following additions to the disclaimer:

There is no warranty against interference with your enjoyment of the library or against infringement. There is no warranty that our efforts or the library will fulfill any of your particular purposes or needs. This library is provided with all faults, and the entire risk of satisfactory quality, performance, accuracy, and effort is with the user.  
libpng versions 0.97, January 1998, through 1.0.6, March 20, 2000, are Copyright (c) 1998, 1999 Glenn Randers-Pehrson, and are distributed

according to the same disclaimer and license as libpng-0.96, with the following individuals added to the list of Contributing Authors:

Tom Lane  
Glenn Randers-Pehrson  
Willem van Schaik

libpng versions 0.89, June 1996, through 0.96, May 1997, are Copyright (c) 1996, 1997 Andreas Dilger Distributed according to the same disclaimer and license as libpng-0.88, with the following individuals added to the list of Contributing Authors:

John Bowler  
Kevin Bracey  
Sam Bushell  
Magnus Holmgren  
Greg Roelofs  
Tom Tanner

libpng versions 0.5, May 1995, through 0.88, January 1996, are Copyright (c) 1995, 1996 Guy Eric Schalnat, Group 42, Inc.

For the purposes of this copyright and license, "Contributing Authors" is defined as the following set of individuals:

Andreas Dilger  
Dave Martindale  
Guy Eric Schalnat  
Paul Schmidt  
Tim Wegner

The PNG Reference Library is supplied "AS IS". The Contributing Authors and Group 42, Inc. disclaim all warranties, expressed or implied, including, without limitation, the warranties of merchantability and of fitness for any purpose. The Contributing Authors and Group 42, Inc. assume no liability for direct, indirect, incidental, special, exemplary, or consequential damages, which may result from the use of the PNG Reference Library, even if advised of the possibility of such damage.

Permission is hereby granted to use, copy, modify, and distribute this source code, or portions hereof, for any purpose, without fee, subject to the following restrictions:

1. The origin of this source code must not be misrepresented.
2. Altered versions must be plainly marked as such and must not be misrepresented as being the original source.
3. This Copyright notice may not be removed or altered from any source or altered source distribution.

The Contributing Authors and Group 42, Inc. specifically permit, without fee, and encourage the use of this source code as a component to supporting the PNG file format in commercial products. If you use this source code in a product, acknowledgment is not required but would be appreciated.

A "png\_get\_copyright" function is available, for convenient use in "about" boxes and the like:

```
printf("%s",png_get_copyright(NULL));
```

Also, the PNG logo (in PNG format, of course) is supplied in the files "pngbar.png" and "pngbar.jpg (88x31)" and "pngnow.png" (98x31).

Libpng is OSI Certified Open Source Software. OSI Certified Open Source is a certification mark of the Open Source Initiative.

## OpenSSL

SOFTWARE DEVELOPED BY THE OPENSSL PROJECT FOR USE IN THE SSL TOOLKIT

LICENSE ISSUES

=====

The OpenSSL toolkit stays under a dual license, i.e. both the conditions of the OpenSSL License and the original SSLeay license apply to the toolkit.

See below for the actual license texts. Actually both licenses are BSD-style Open Source licenses. In case of any license issues related to OpenSSL please contact openssl-core@openssl.org.

## OpenSSL License

-----  
Copyright (c) 1998-2011 The OpenSSL Project. All rights reserved.

Redistribution and use in source and binary forms, with or without modification, are permitted provided that the following conditions are met:

1. Redistributions of source code must retain the above copyright notice, this list of conditions and the following disclaimer.
2. Redistributions in binary form must reproduce the above copyright notice, this list of conditions and the following disclaimer in the documentation and/or other materials provided with the distribution.
3. All advertising materials mentioning features or use of this software must display the following acknowledgment:  
"This product includes software developed by the OpenSSL Project for use in the OpenSSL Toolkit. (<http://www.openssl.org/>)"
4. The names "OpenSSL Toolkit" and "OpenSSL Project" must not be used to endorse or promote products derived from this software without prior written permission. For written permission, please contact [openssl-core@openssl.org](mailto:openssl-core@openssl.org).
5. Products derived from this software may not be called "OpenSSL" nor may "OpenSSL" appear in their names without prior written permission of the OpenSSL Project.
6. Redistributions of any form whatsoever must retain the following acknowledgment:  
"This product includes software developed by the OpenSSL Project for use in the OpenSSL Toolkit (<http://www.openssl.org/>)"

THIS SOFTWARE IS PROVIDED BY THE OpenSSL PROJECT "AS IS" AND ANY EXPRESSED OR IMPLIED WARRANTIES, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE DISCLAIMED. IN NO EVENT SHALL THE OpenSSL PROJECT OR ITS CONTRIBUTORS BE LIABLE FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING, BUT NOT LIMITED TO, PROCUREMENT OF SUBSTITUTE GOODS OR SERVICES; LOSS OF USE, DATA, OR PROFITS; OR BUSINESS INTERRUPTION) HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OF THIS SOFTWARE, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGE.

This product includes cryptographic software written by Eric Young ([ey@cryptsoft.com](mailto:ey@cryptsoft.com)). This product includes software written by Tim Hudson ([tjh@cryptsoft.com](mailto:tjh@cryptsoft.com)).

## Original SSlEay License

Copyright (C) 1995-1998 Eric Young ([ey@cryptsoft.com](mailto:ey@cryptsoft.com))  
All rights reserved.

This package is an SSL implementation written by Eric Young ([ey@cryptsoft.com](mailto:ey@cryptsoft.com)).  
The implementation was written so as to conform with Netscapes SSL.

This library is free for commercial and non-commercial use as long as the following conditions are adhered to. The following conditions apply to all code found in this distribution, be it the RC4, RSA, lhash, DES, etc., code; not just the SSL code. The SSL documentation included with this distribution is covered by the same copyright terms except that the holder is Tim Hudson ([tjh@cryptsoft.com](mailto:tjh@cryptsoft.com)).

Copyright remains Eric Young's, and as such any Copyright notices in the code are not to be removed.

If this package is used in a product, Eric Young should be given attribution as the author of the parts of the library used. This can be in the form of a textual message at program startup or in documentation (online or textual) provided with the package.

Redistribution and use in source and binary forms, with or without modification, are permitted provided that the following conditions are met:

1. Redistributions of source code must retain the copyright notice, this list of conditions and the following disclaimer.
2. Redistributions in binary form must reproduce the above copyright notice, this list of conditions and the following disclaimer in the documentation and/or other materials provided with the distribution.
3. All advertising materials mentioning features or use of this software must display the following acknowledgement:  
"This product includes cryptographic software written by Eric Young ([ey@cryptsoft.com](mailto:ey@cryptsoft.com)). The word "cryptographic" can be left out if the routines from the library being used are not cryptographic related:-).
4. If you include any Windows specific code (or a derivative thereof) from the apps directory (application code) you must include an acknowledgement: "This product includes software written by Tim Hudson ([tjh@cryptsoft.com](mailto:tjh@cryptsoft.com))"

THIS SOFTWARE IS PROVIDED BY ERIC YOUNG "AS IS" AND ANY EXPRESS OR IMPLIED WARRANTIES, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE DISCLAIMED. IN NO EVENT SHALL THE AUTHOR OR CONTRIBUTORS BE LIABLE FOR ANY DIRECT, INDIRECT, INCIDENTAL, SPECIAL, EXEMPLARY, OR CONSEQUENTIAL DAMAGES (INCLUDING, BUT NOT LIMITED TO, PROCUREMENT OF SUBSTITUTE GOODS OR SERVICES; LOSS OF USE, DATA, OR PROFITS; OR BUSINESS INTERRUPTION) HOWEVER CAUSED AND ON ANY THEORY OF LIABILITY, WHETHER IN CONTRACT, STRICT LIABILITY, OR TORT (INCLUDING NEGLIGENCE OR OTHERWISE) ARISING IN ANY WAY OUT OF THE USE OF THIS SOFTWARE, EVEN IF ADVISED OF THE POSSIBILITY OF SUCH DAMAGE.

The licence and distribution terms for any publicly available version or derivative of this code cannot be changed, i.e. this code cannot simply be copied and put under another distribution licence [including the GNU Public Licence.]

## Apache License

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

### 1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

### 2. Grant of Copyright License.

Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, non-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

### 3. Grant of Patent License.

Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, non-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

### 4. Redistribution.

You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

- You must give any other recipients of the Work or Derivative Works a copy of this License; and
- You must cause any modified files to carry prominent notices stating that You changed the files; and
- You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and
- If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

### 5. Submission of Contributions.

Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

### 6. Trademarks.

This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

### 7. Disclaimer of Warranty.

Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

### 8. Limitation of Liability.

In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

### 9. Accepting Warranty or Additional Liability.

While redistributing the Work or Derivative works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

## END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[]" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

Copyright [yyyy] [name of copyright owner]

Licensed under the Apache License, Version 2.0 (the "License"); you may not use this file except in compliance with the License. You may obtain a copy of the License at <http://www.apache.org/licenses/LICENSE-2.0>

Unless required by applicable law or agreed to in writing, software distributed under the License is distributed on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied. See the License for the specific language governing permissions and limitations under the License.

## JsonCpp

The JsonCpp library's source code, including accompanying documentation, tests and demonstration applications, are licensed under the following conditions...

The author (Baptiste Lepilleur) explicitly disclaims copyright in all jurisdictions which recognize such a disclaimer. In such jurisdictions, this software is released into the Public Domain.

In jurisdictions which do not recognize Public Domain property (e.g. Germany as of 2010), this software is Copyright (c) 2007-2010 by Baptiste Lepilleur, and is released under the terms of the MIT License (see below).

In jurisdictions which recognize Public Domain property, the user of this software may choose to accept it either as 1) Public Domain, 2) under the conditions of the MIT License (see below), or 3) under the terms of dual Public Domain/MIT license conditions described here, as they choose.

The MIT License is about as close to Public Domain as a license can get, and is described in clear, concise terms at:

[http://en.wikipedia.org/wiki/MIT\\_License](http://en.wikipedia.org/wiki/MIT_License)

The full text of the MIT License follows:

=====  
Copyright (c) 2007-2010 Baptiste Lepilleur

Permission is hereby granted, free of charge, to any person obtaining a copy of this software and associated documentation files (the "Software"), to deal in the Software without restriction, including without limitation the rights to use, copy, modify, merge, publish, distribute, sublicense, and/or sell copies of the Software, and to permit persons to whom the Software is furnished to do so, subject to the following conditions:

The above copyright notice and this permission notice shall be included in all copies or substantial portions of the Software.

THE SOFTWARE IS PROVIDED "AS IS", WITHOUT WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO THE WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND NONINFRINGEMENT. IN NO EVENT SHALL THE AUTHORS OR COPYRIGHT HOLDERS BE LIABLE FOR ANY CLAIM, DAMAGES OR OTHER LIABILITY, WHETHER IN AN ACTION OF CONTRACT, TORT OR OTHERWISE, ARISING FROM, OUT OF OR IN CONNECTION WITH THE SOFTWARE OR THE USE OR OTHER DEALINGS IN THE SOFTWARE.

=====  
(END LICENSE TEXT)

The MIT license is compatible with both the GPL and commercial software, affording one all of the rights of Public Domain with the minor nuisance of being required to keep the above copyright notice and license text in the source code. Note also that by accepting the Public Domain "license" you can re-license your copy using whatever license you like.

## flex

Flex carries the copyright used for BSD software, slightly modified because it originated at the Lawrence Berkeley (not Livermore!) Laboratory, which operates under a contract with the Department of Energy:

Copyright (c) 1990 The Regents of the University of California.  
All rights reserved.

This code is derived from software contributed to Berkeley by Vern Paxson.

The United States Government has rights in this work pursuant to contract no. DE-AC03-76SF00098 between the United States Department of Energy and the University of California.

Redistribution and use in source and binary forms with or without modification are permitted provided that:  
(1) source distributions retain this entire copyright notice and comment, and  
(2) distributions including binaries display the following acknowledgement: "This product includes software developed by the University of California, Berkeley and its contributors" in the documentation or other materials provided with the distribution and in all advertising materials mentioning features or use of this software. Neither the name of the University nor the names of its contributors may be used to endorse or promote products derived from this software without specific prior written permission.

THIS SOFTWARE IS PROVIDED "AS IS" AND WITHOUT ANY EXPRESS OR IMPLIED WARRANTIES, INCLUDING, WITHOUT LIMITATION, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

This basically says "do whatever you please with this software except remove this notice or take advantage of the University's (or the flex authors') name".

Note that the "flex.skl" scanner skeleton carries no copyright notice. You are free to do whatever you please with scanners generated using flex; for them, you are not even bound by the above copyright.

## libfcgi(FastCGI)

Open Market License  
=====

This FastCGI application library source and object code (the "Software") and its documentation (the "Documentation") are copyrighted by Open Market, Inc ("Open Market"). The following terms apply to all files associated with the Software and Documentation unless explicitly disclaimed in individual files.

Open Market permits you to use, copy, modify, distribute, and license this Software and the Documentation for any purpose, provided that existing copyright notices are retained in all copies and that this notice is included verbatim in any distributions. No written agreement, license, or royalty fee is required for any of the authorized uses. Modifications to this Software and Documentation may be copyrighted by their authors and need not follow the licensing terms described here. If modifications to this Software and Documentation have new licensing terms, the new terms must be clearly indicated on the first page of each file where they apply.

OPEN MARKET MAKES NO EXPRESS OR IMPLIED WARRANTY WITH RESPECT TO THE SOFTWARE OR THE DOCUMENTATION, INCLUDING WITHOUT LIMITATION ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. IN NO EVENT SHALL OPEN MARKET BE LIABLE TO YOU OR ANY THIRD PARTY FOR ANY DAMAGES ARISING FROM OR RELATING TO THIS SOFTWARE OR THE DOCUMENTATION, INCLUDING, WITHOUT LIMITATION, ANY INDIRECT, SPECIAL OR CONSEQUENTIAL DAMAGES OR SIMILAR DAMAGES, INCLUDING LOST PROFITS OR LOST DATA, EVEN IF OPEN MARKET HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. THE SOFTWARE AND DOCUMENTATION ARE PROVIDED "AS IS". OPEN MARKET HAS NO LIABILITY IN CONTRACT, TORT, NEGLIGENCE OR OTHERWISE ARISING OUT OF THIS SOFTWARE OR THE DOCUMENTATION.

## PCRE

PCRE LICENCE  
-----

PCRE is a library of functions to support regular expressions whose syntax and semantics are as close as possible to those of the Perl 5 language.

Release 8 of PCRE is distributed under the terms of the "BSD" licence, as specified below. The documentation for PCRE, supplied in the "doc" directory, is distributed under the same terms as the software itself.

The basic library functions are written in C and are freestanding. Also included in the distribution is a set of C++ wrapper functions, and a just-in-time compiler that can be used to optimize pattern matching. These are both optional features that can be omitted when the library is built.

## THE BASIC LIBRARY FUNCTIONS
